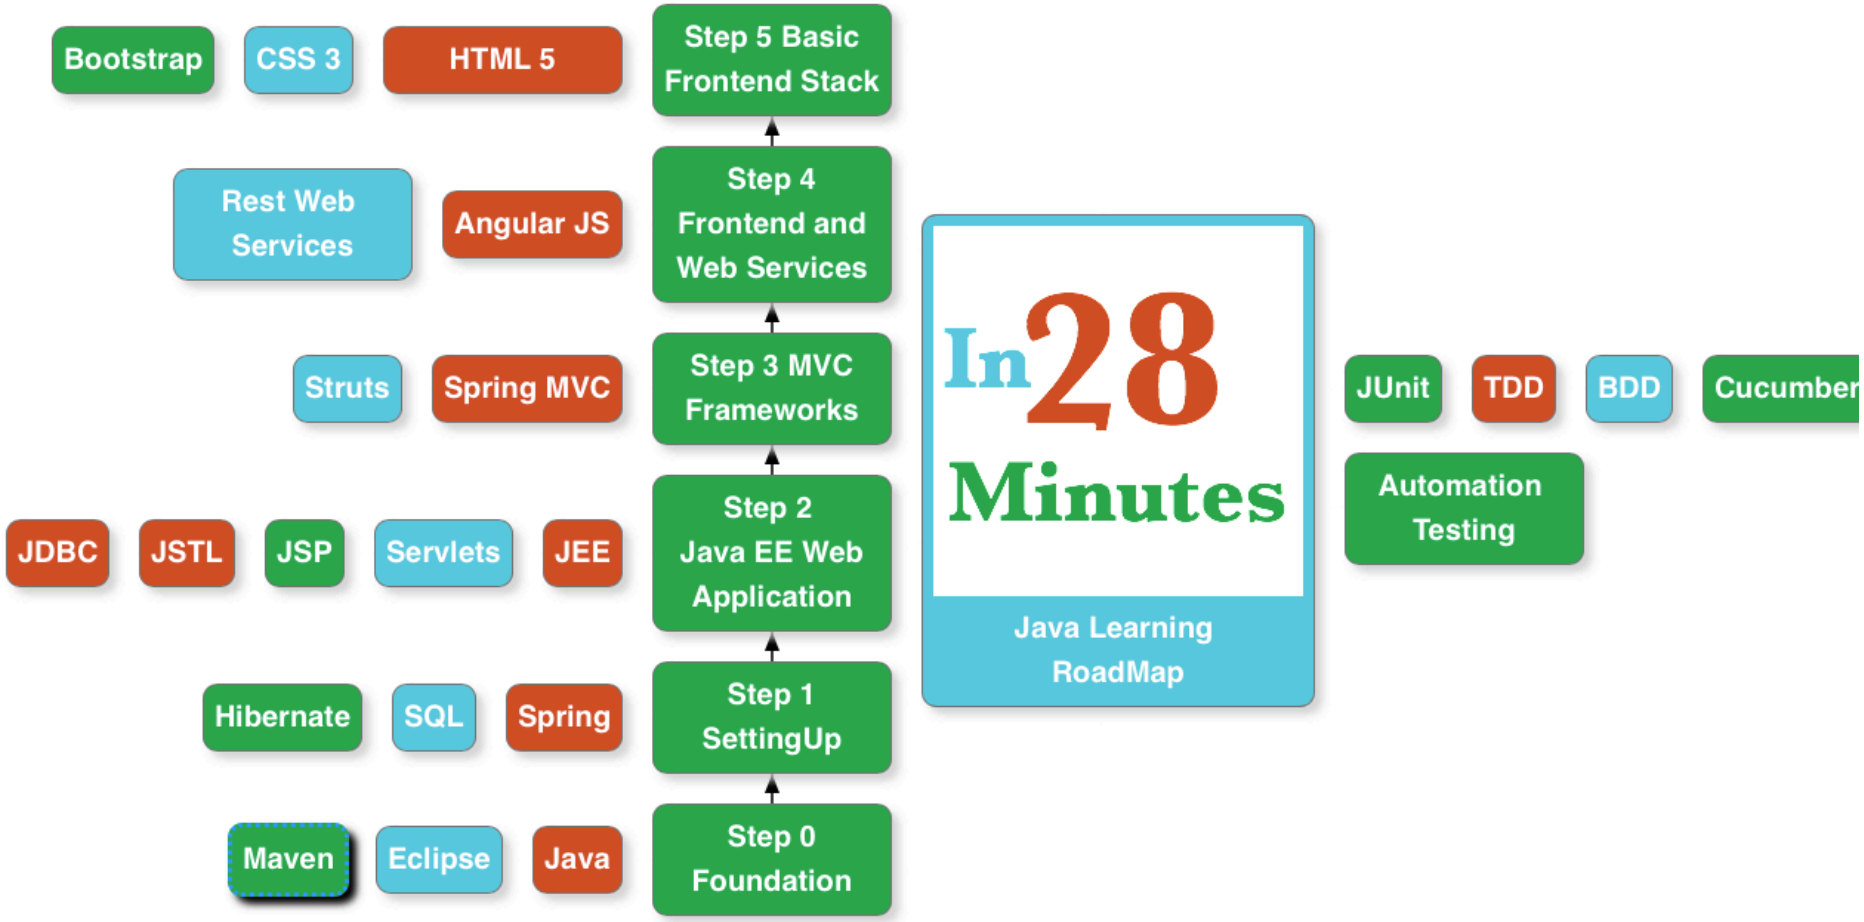
Step 2
Java EE Web Application

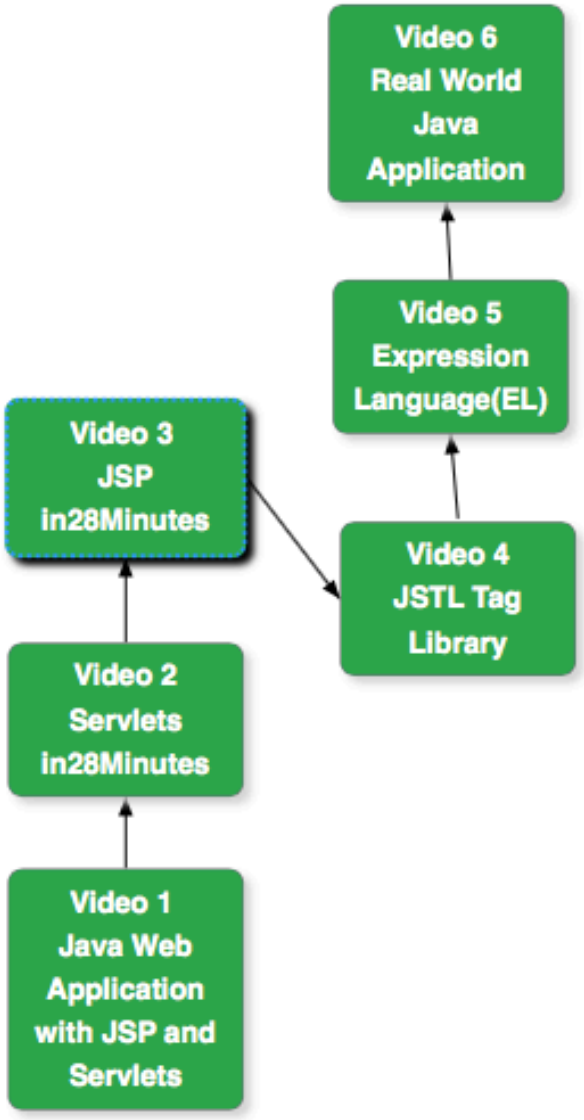
In 28 Minutes



Bootstrap
CSS 3
HTML 5
Step 5 Basic Frontend Stack
Rest Web Services
Angular JS
Step 4 Frontend and Web Services
Struts
Spring MVC
Step 3 MVC Frameworks
JDBC
JSTL
JSP
Servlets
JEE
Step 2 Java EE Web Application
Hibernate
SQL
Spring
Step 1 SettingUp
Maven
Eclipse
Java
Step 0 Foundation
In28 Minutes
Java Learning RoadMap
JUnit
TDD
BDD
Cucumber
Automation Testing

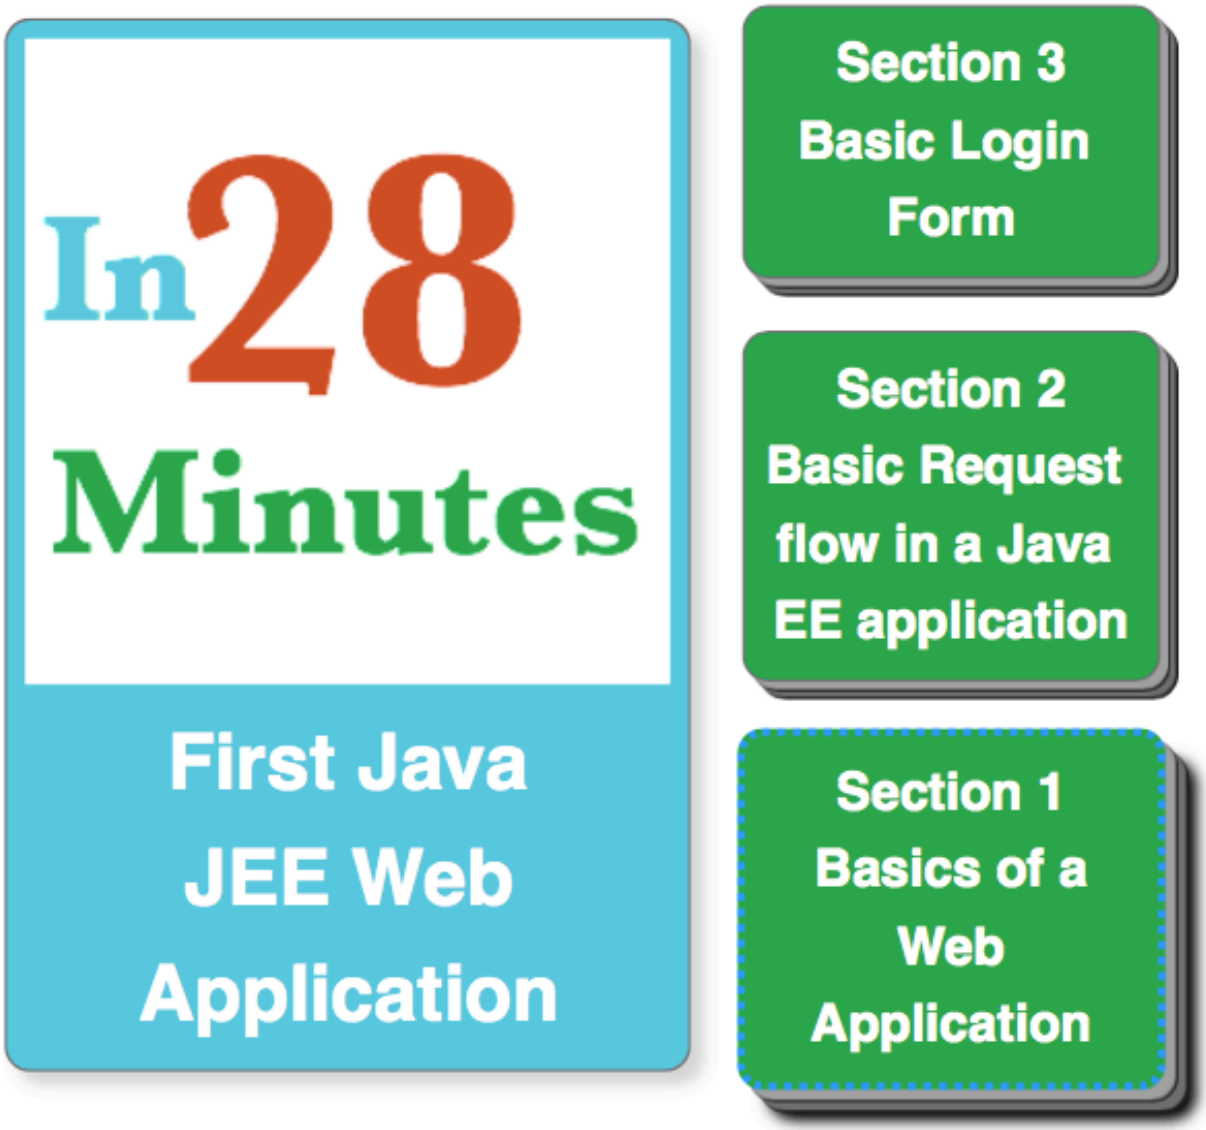
In28 Minutes

Java Web Application

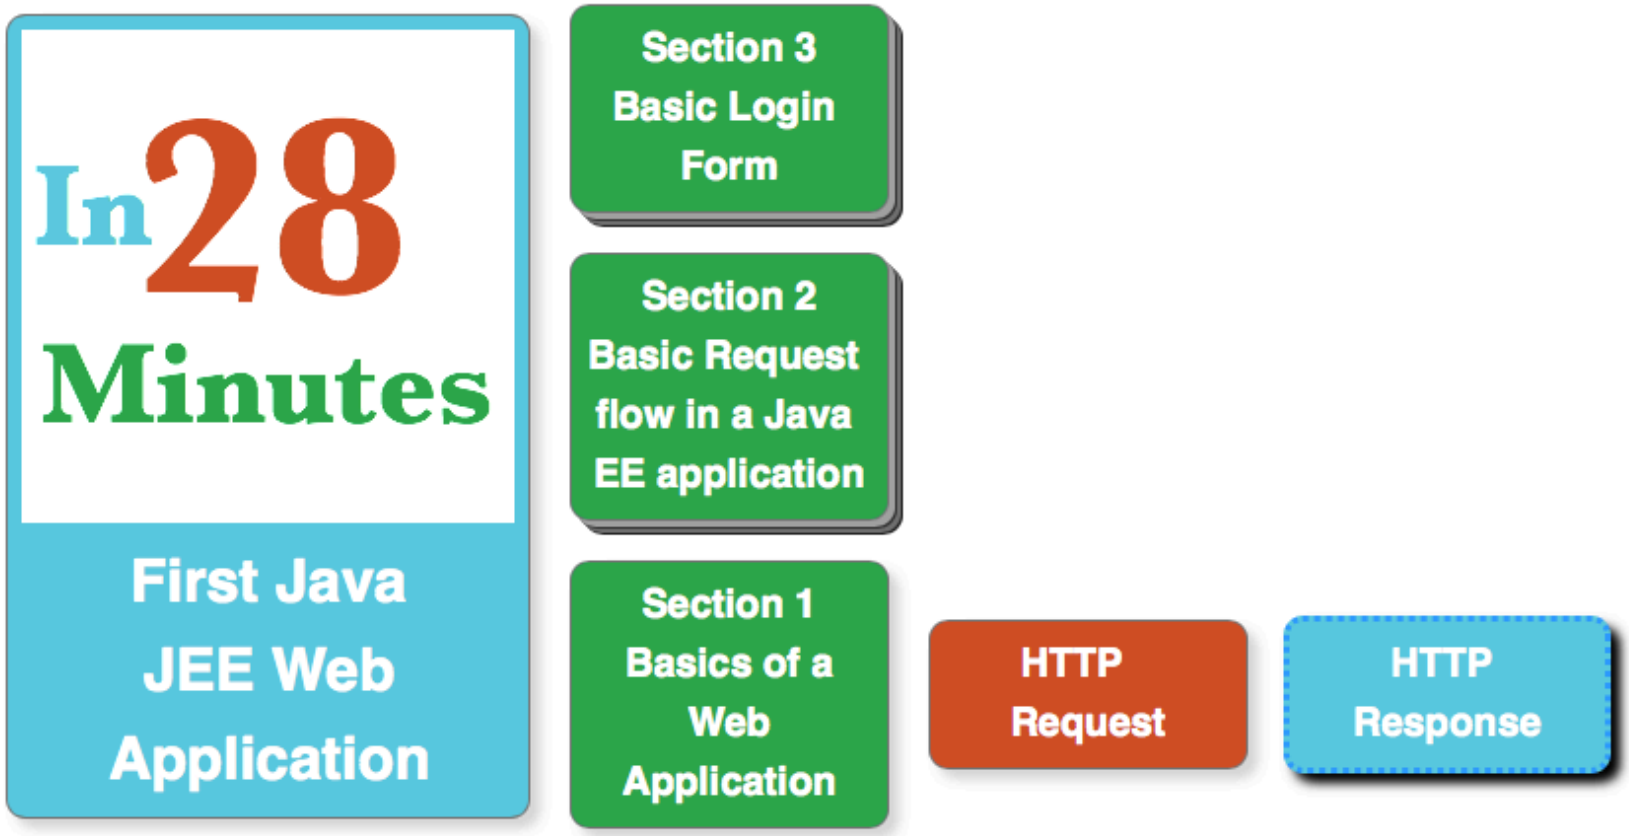


Step 2 – Video 1
First
Java EE Web Application

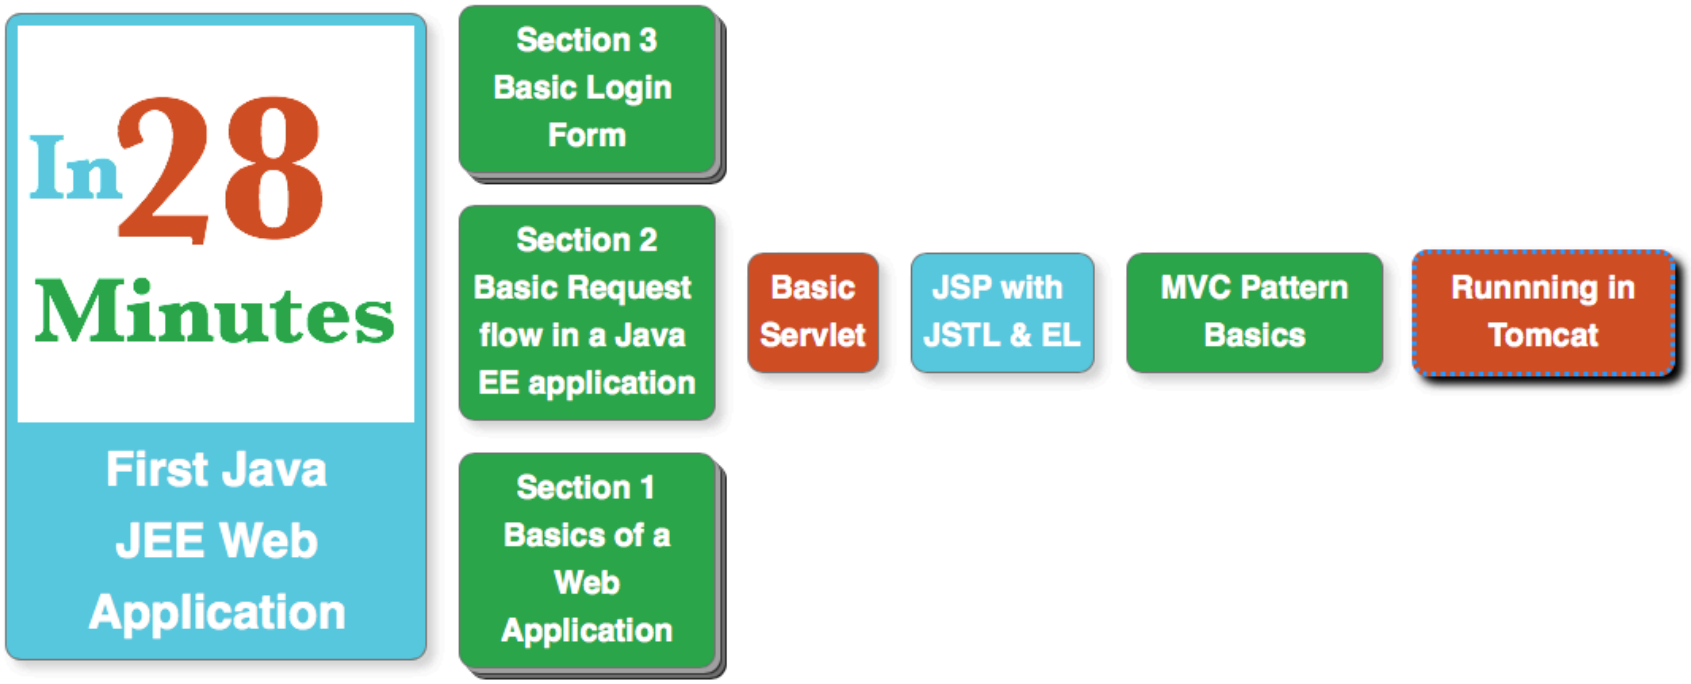
In28
Minutes



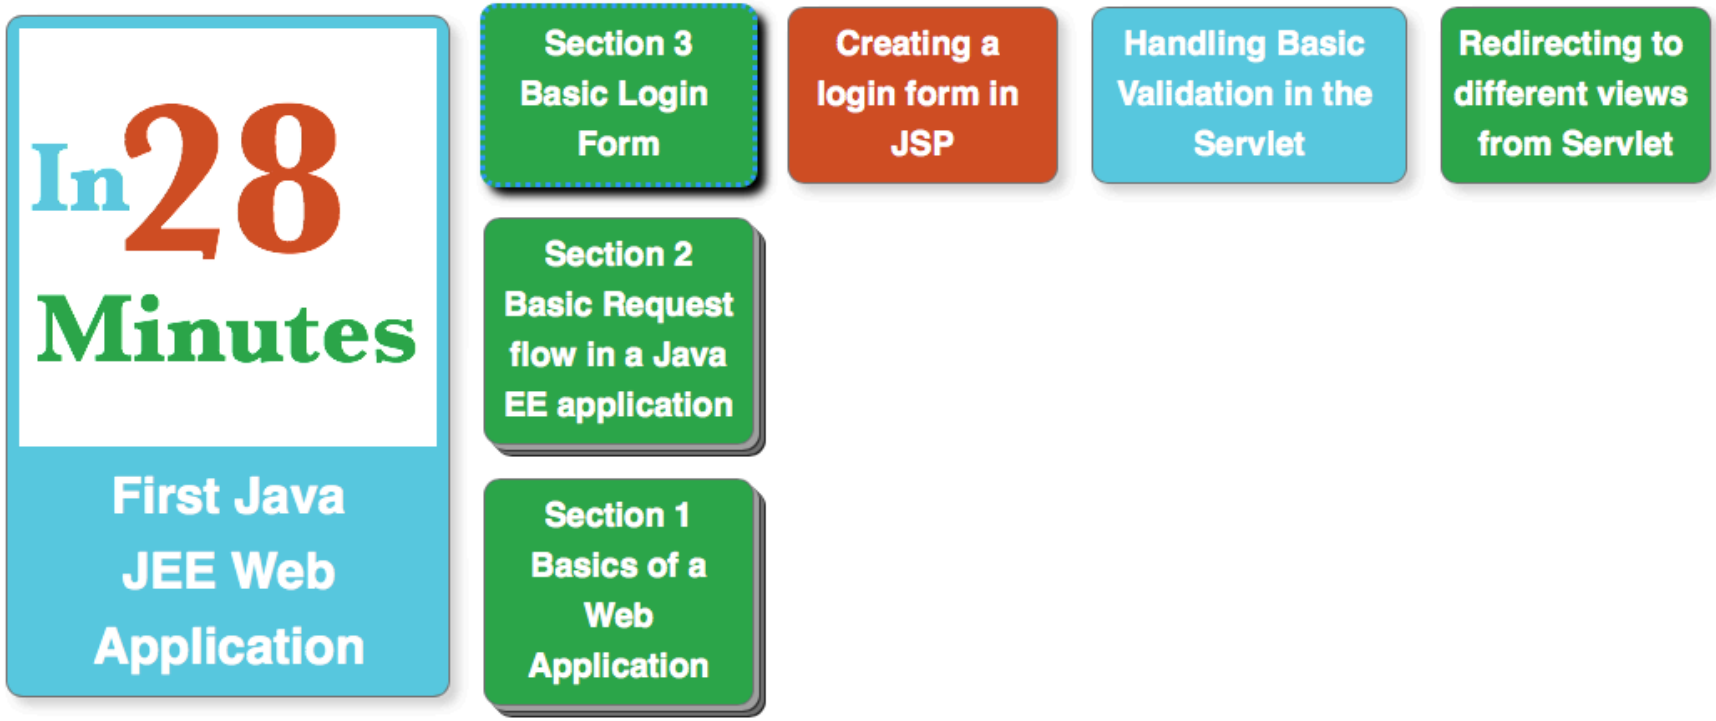
In28
Minutes
First Java JEE Web Application
Section 3 Basic Login Form
Section 2 Basic Request flow in a Java EE application
Section 1 Basics of a Web Application



In28 Minutes
First Java JEE Web Application
Section 3 Basic Login Form
Section 2 Basic Request flow in a Java EE application
Section 1 Basics of a Web Application
HTTP Request
HTTP Response



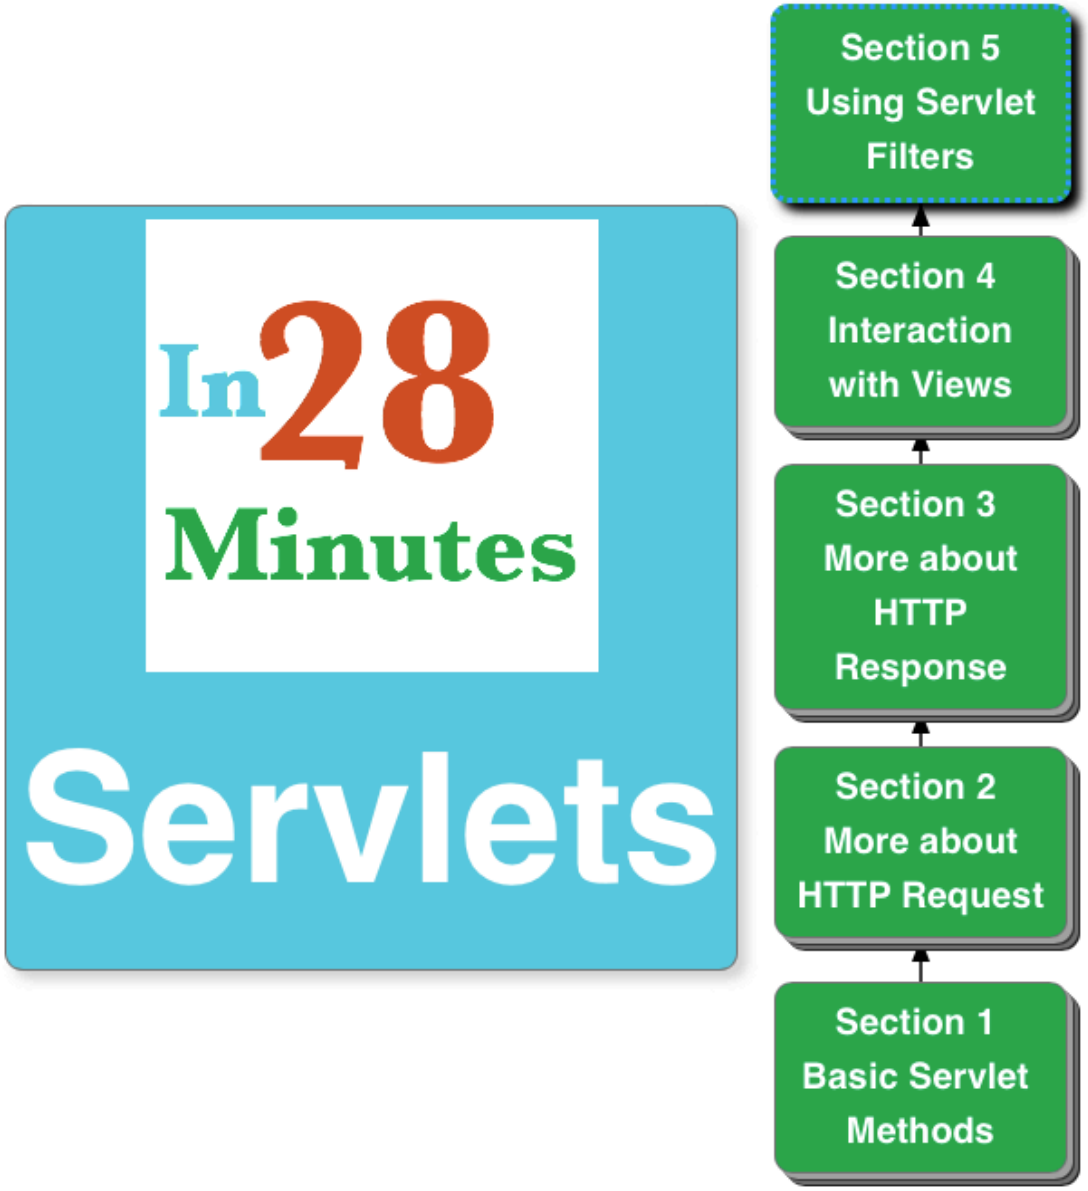
In28 Minutes
First Java JEE Web Application
Section 3 Basic Login Form
Section 2 Basic Request flow in a Java EE application
Section 1 Basics of a Web Application
Basic Servlet
JSP with JSTL & EL
MVC Pattern Basics
Runnning in Tomcat



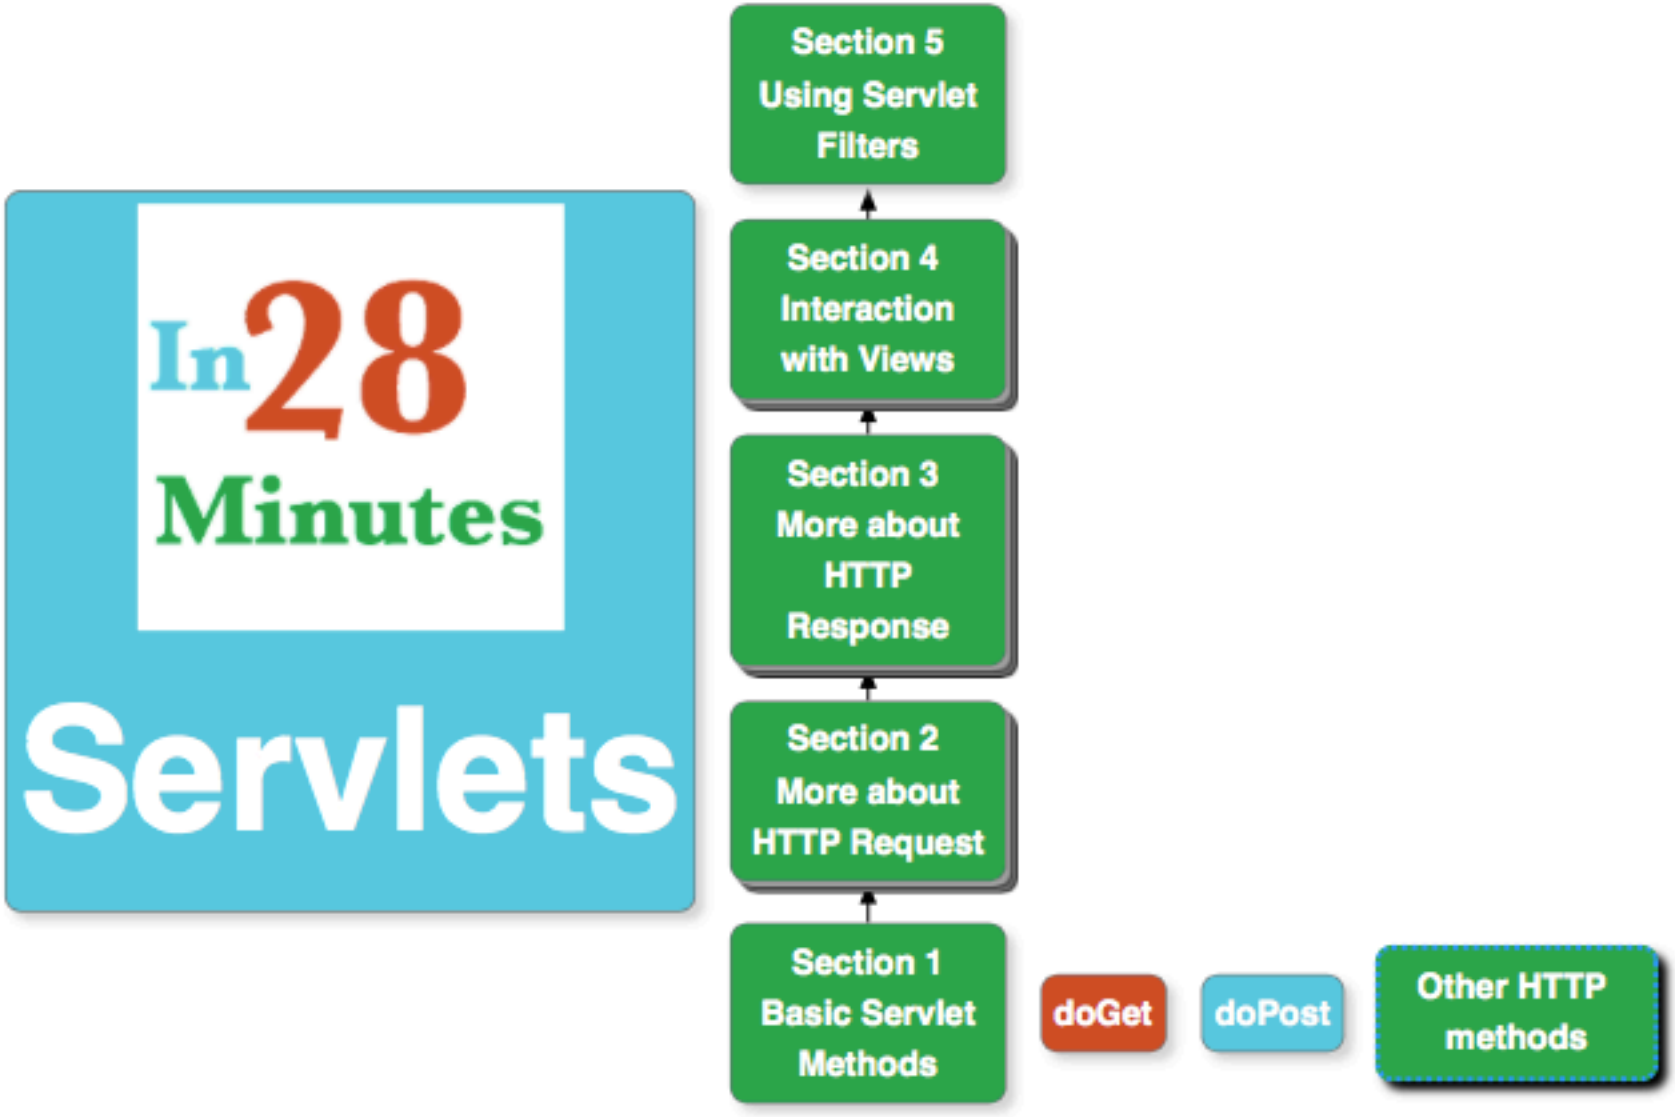
In28 Minutes
First Java JEE Web Application
Section 3 Basic Login Form
Creating a login form in JSP
Handling Basic Validation in the Servlet
Redirecting to different views from Servlet
Section 2 Basic Request flow in a Java EE application
Section 1 Basics of a Web Application

Step 2 – Video 2
Java Servlets

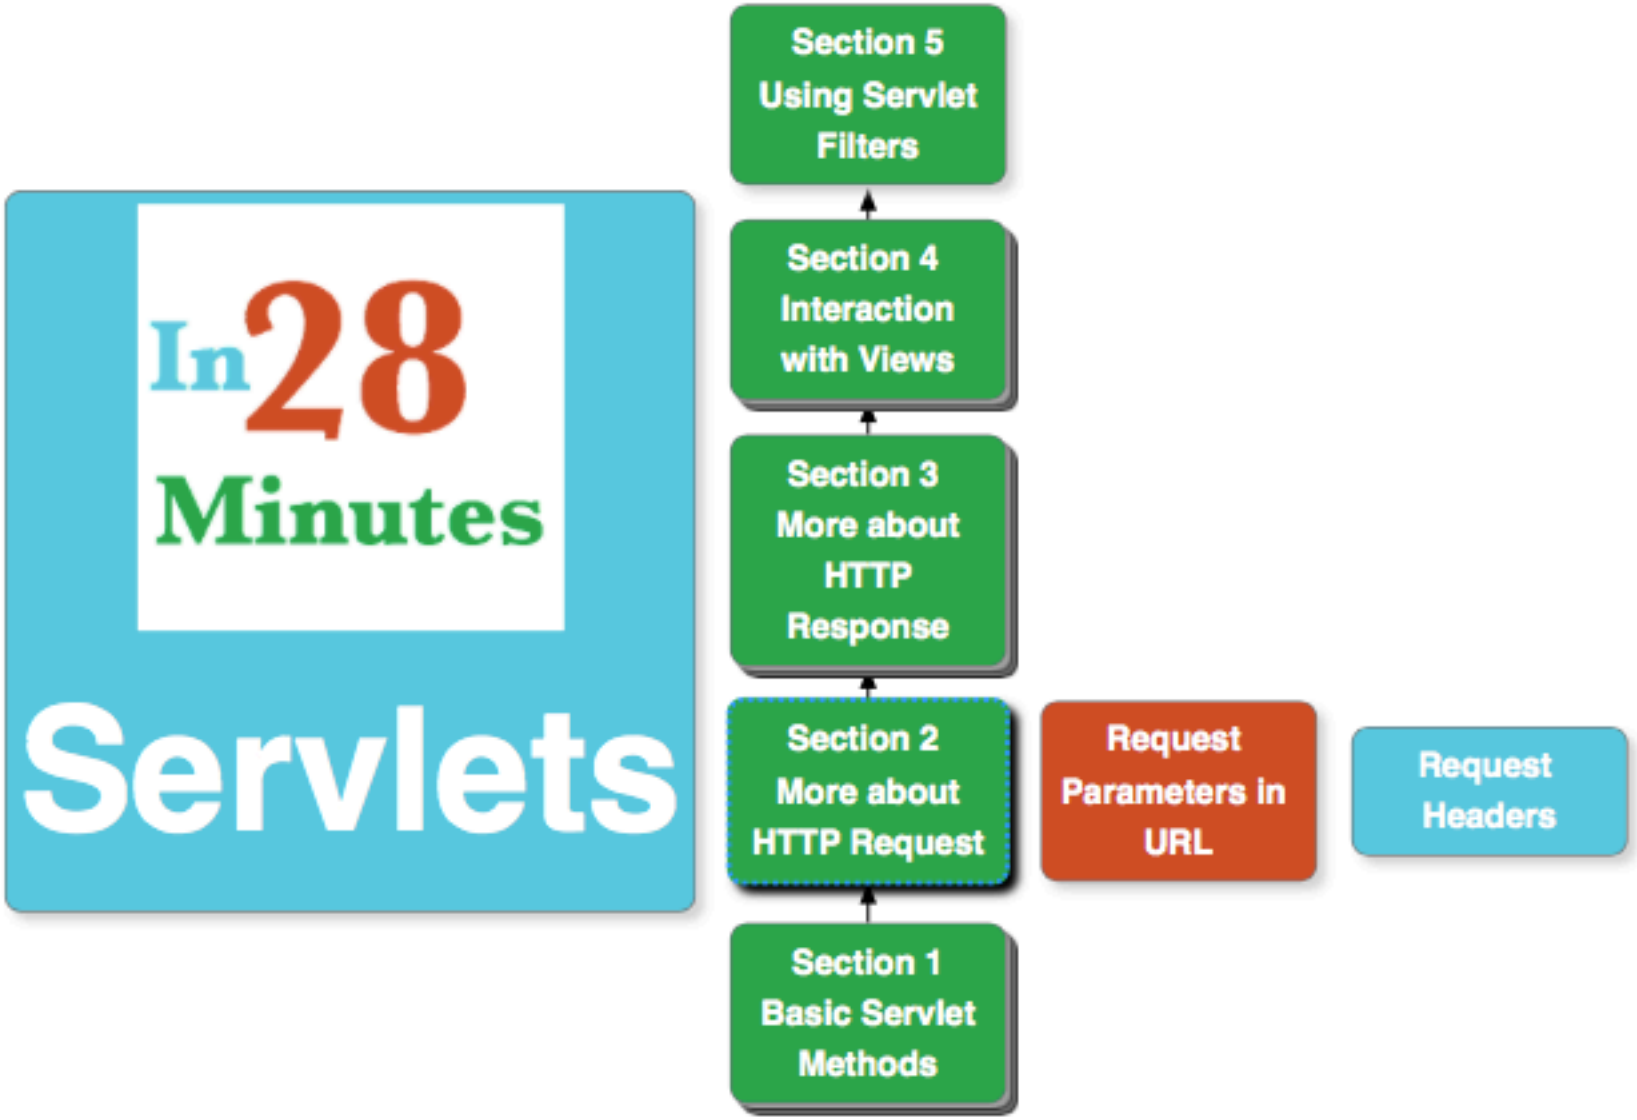
In28
Minutes



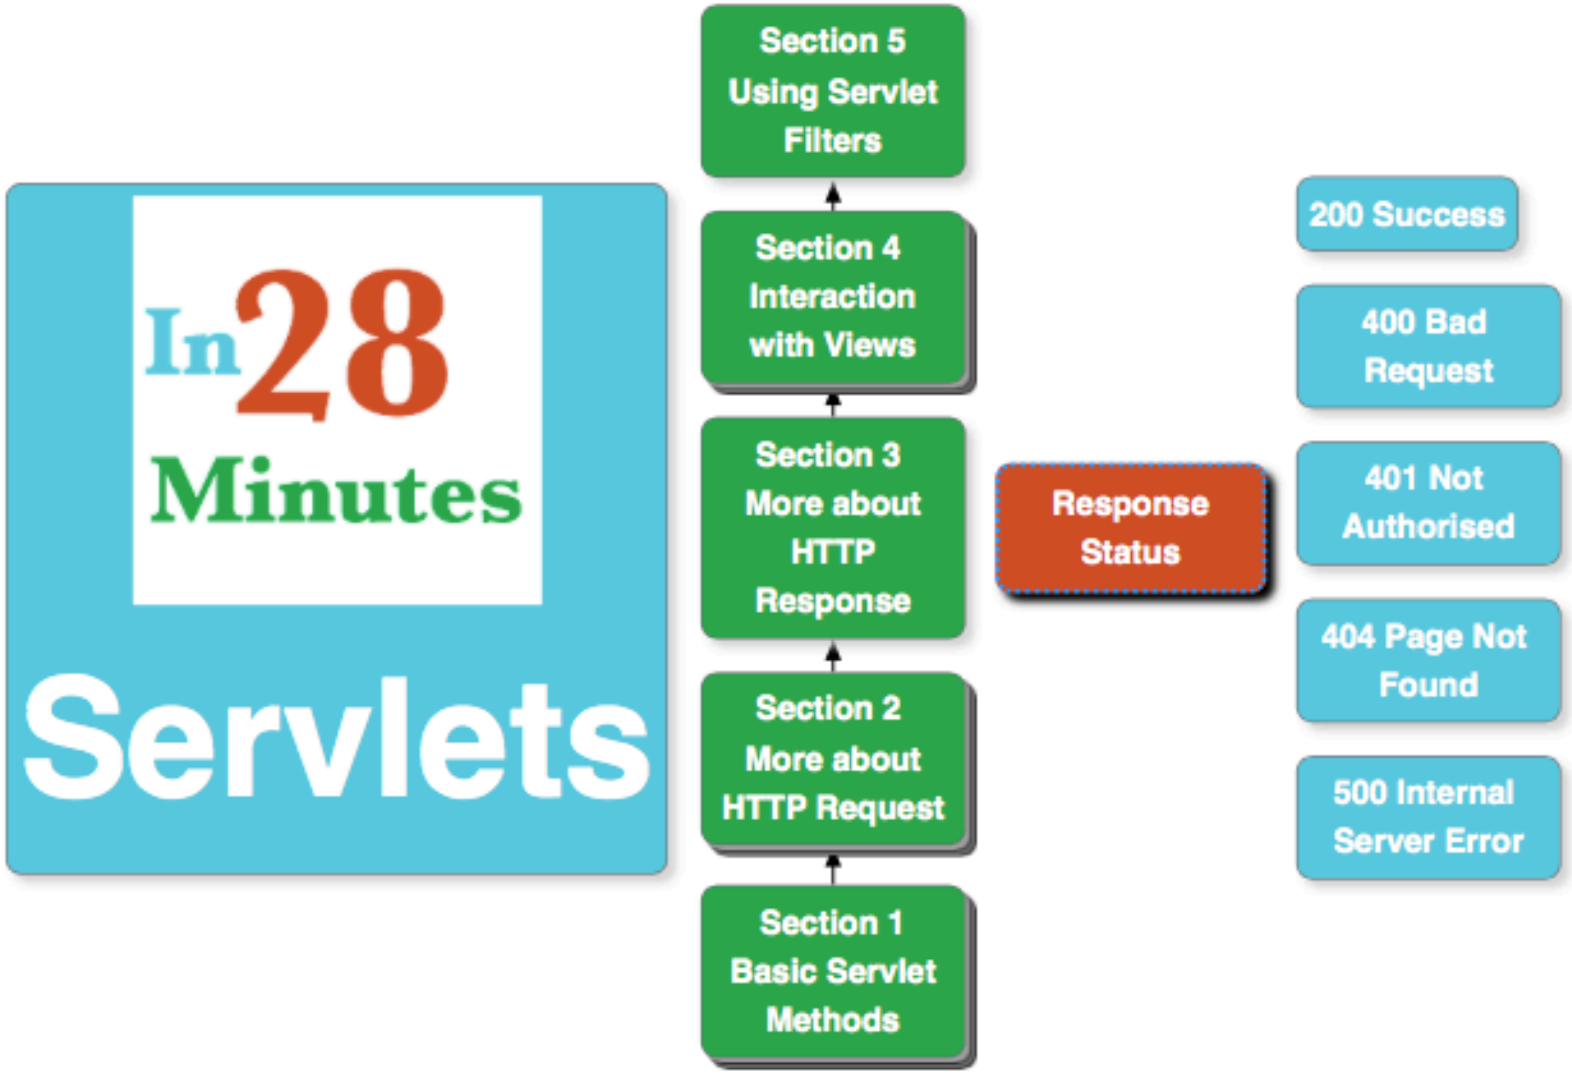
In28
Minutes
Servlets
Section 5
Using Servlet
Filters
Section 4
Interaction
with Views
Section 3
More about
HTTP
Response
Section 2
More about
HTTP Request
Section 1
Basic Servlet
Methods



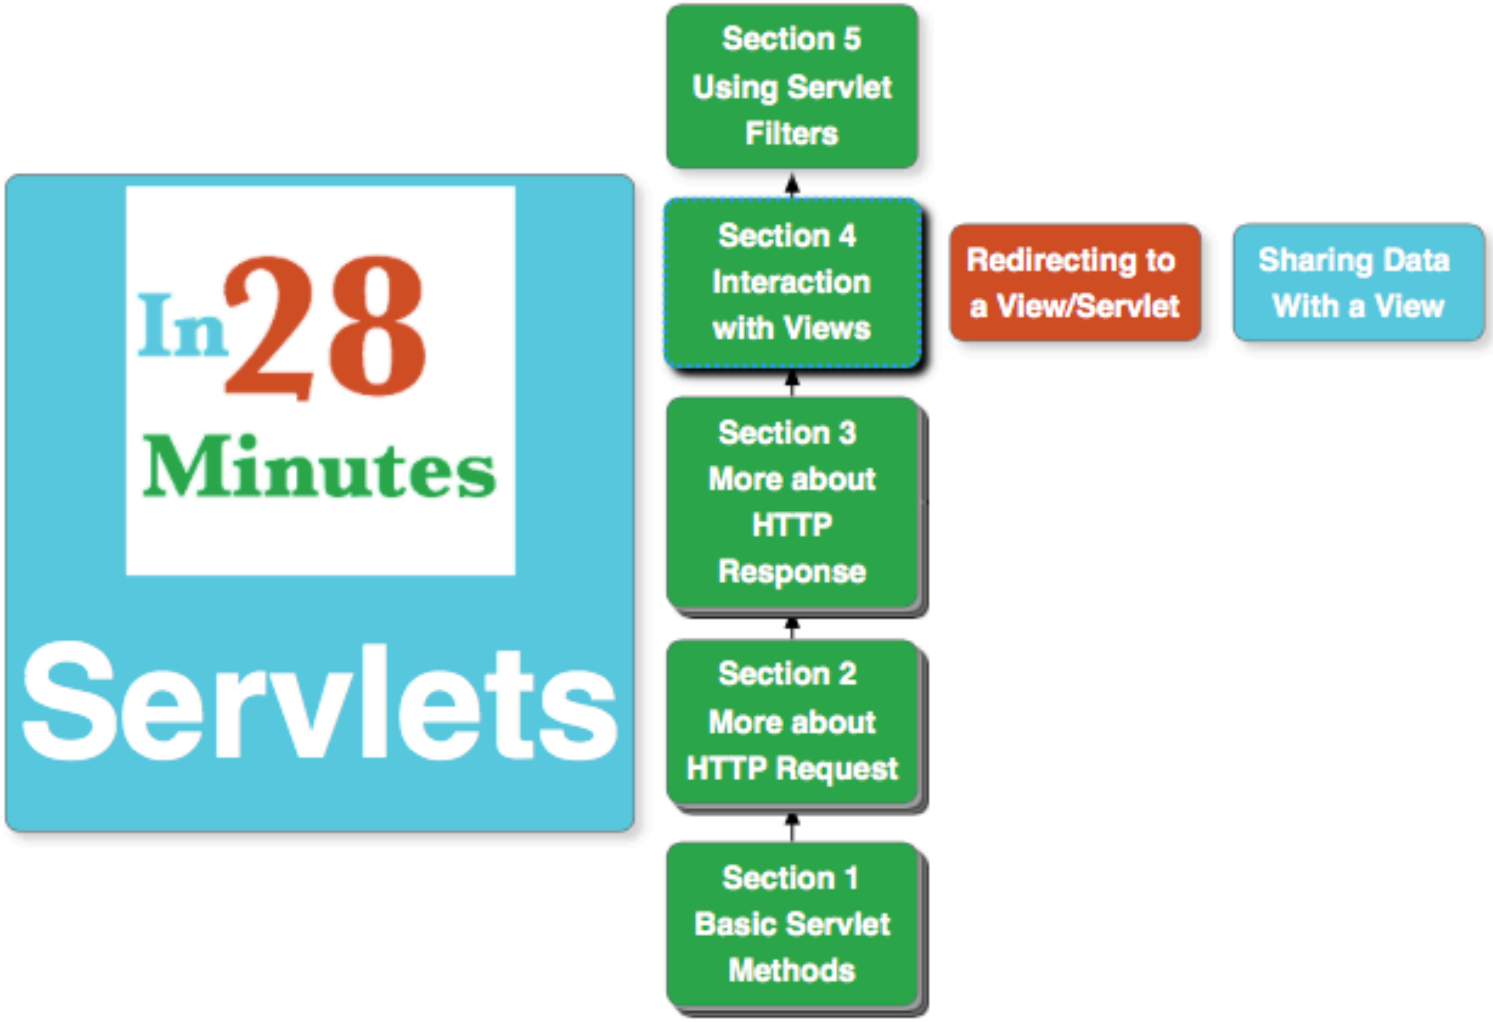
In28 Minutes
Servlets
Section 5 Using Servlet Filters
Section 4 Interaction with Views
Section 3 More about HTTP Response
Section 2 More about HTTP Request
Section 1 Basic Servlet Methods
doGet
doPost
Other HTTP methods



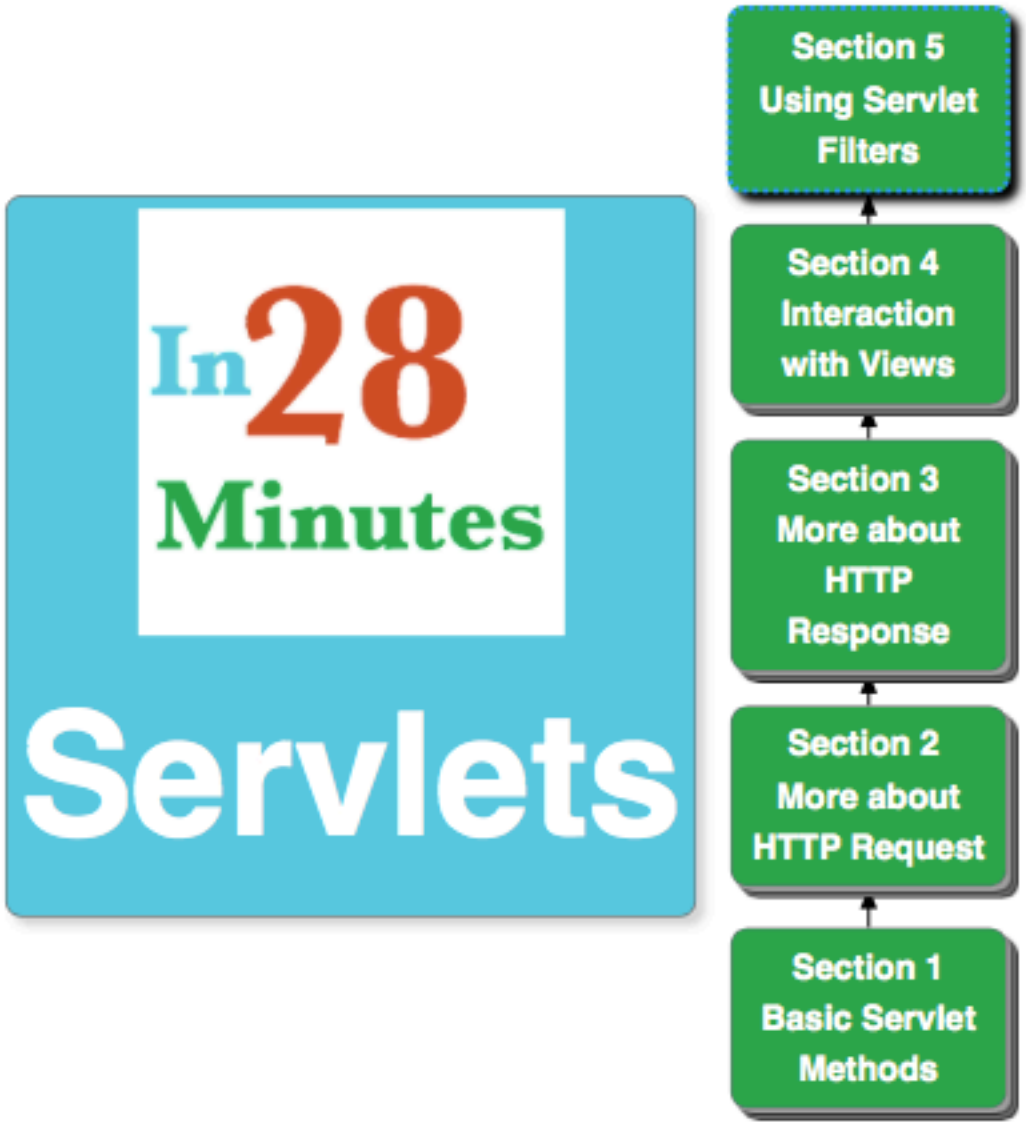
In28 Minutes
Servlets
Section 5 Using Servlet Filters
Section 4 Interaction with Views
Section 3 More about HTTP Response
Section 2 More about HTTP Request
Request Parameters in URL
Request Headers
Section 1 Basic Servlet Methods



In28 Minutes
Servlets
Section 5 Using Servlet Filters
Section 4 Interaction with Views
Section 3 More about HTTP Response
Section 2 More about HTTP Request
Section 1 Basic Servlet Methods
Response Status
200 Success
400 Bad Request
401 Not Authorised
404 Page Not Found
500 Internal Server Error



In28 Minutes
Servlets
Section 5 Using Servlet Filters
Section 4 Interaction with Views
Redirecting to a View/Servlet
Sharing Data With a View
Section 3 More about HTTP Response
Section 2 More about HTTP Request
Section 1 Basic Servlet Methods

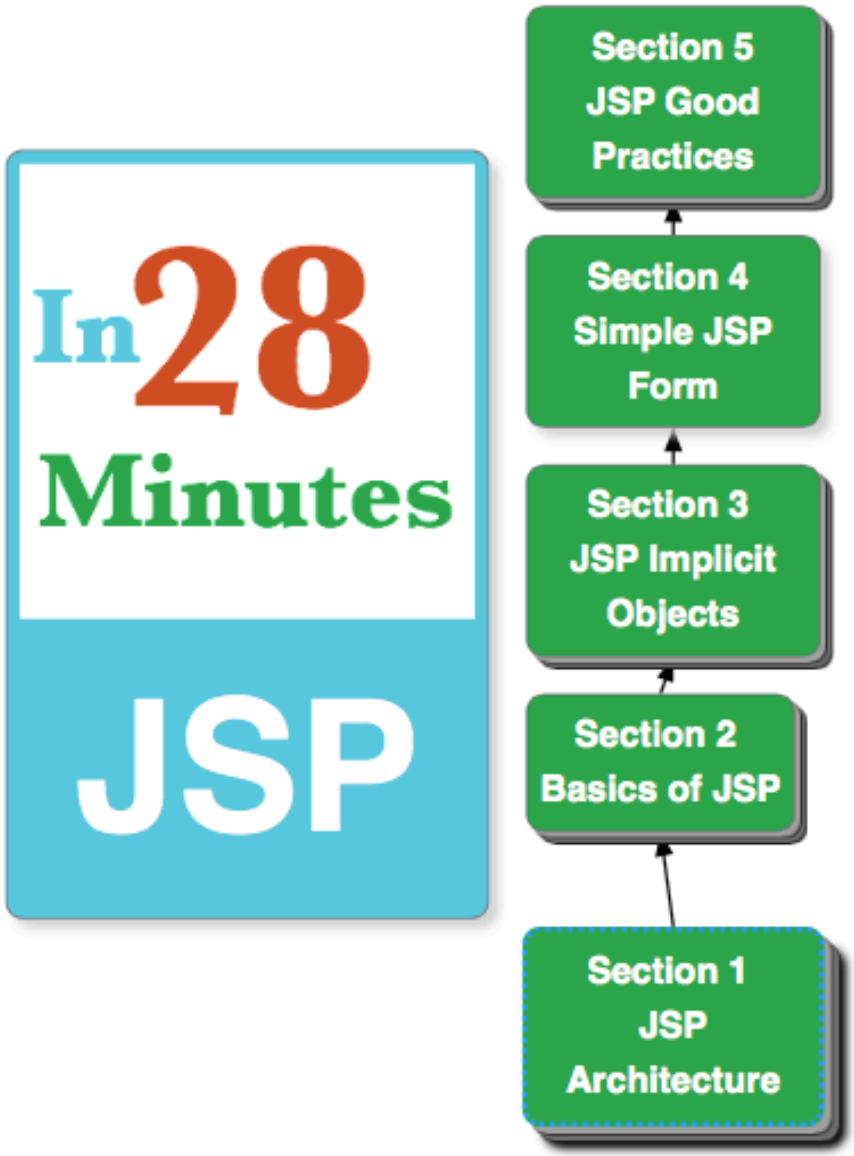


In28
Minutes
Servlets
Section 5
Using Servlet
Filters
Section 4
Interaction
with Views
Section 3
More about
HTTP
Response
Section 2
More about
HTTP Request
Section 1
Basic Servlet
Methods

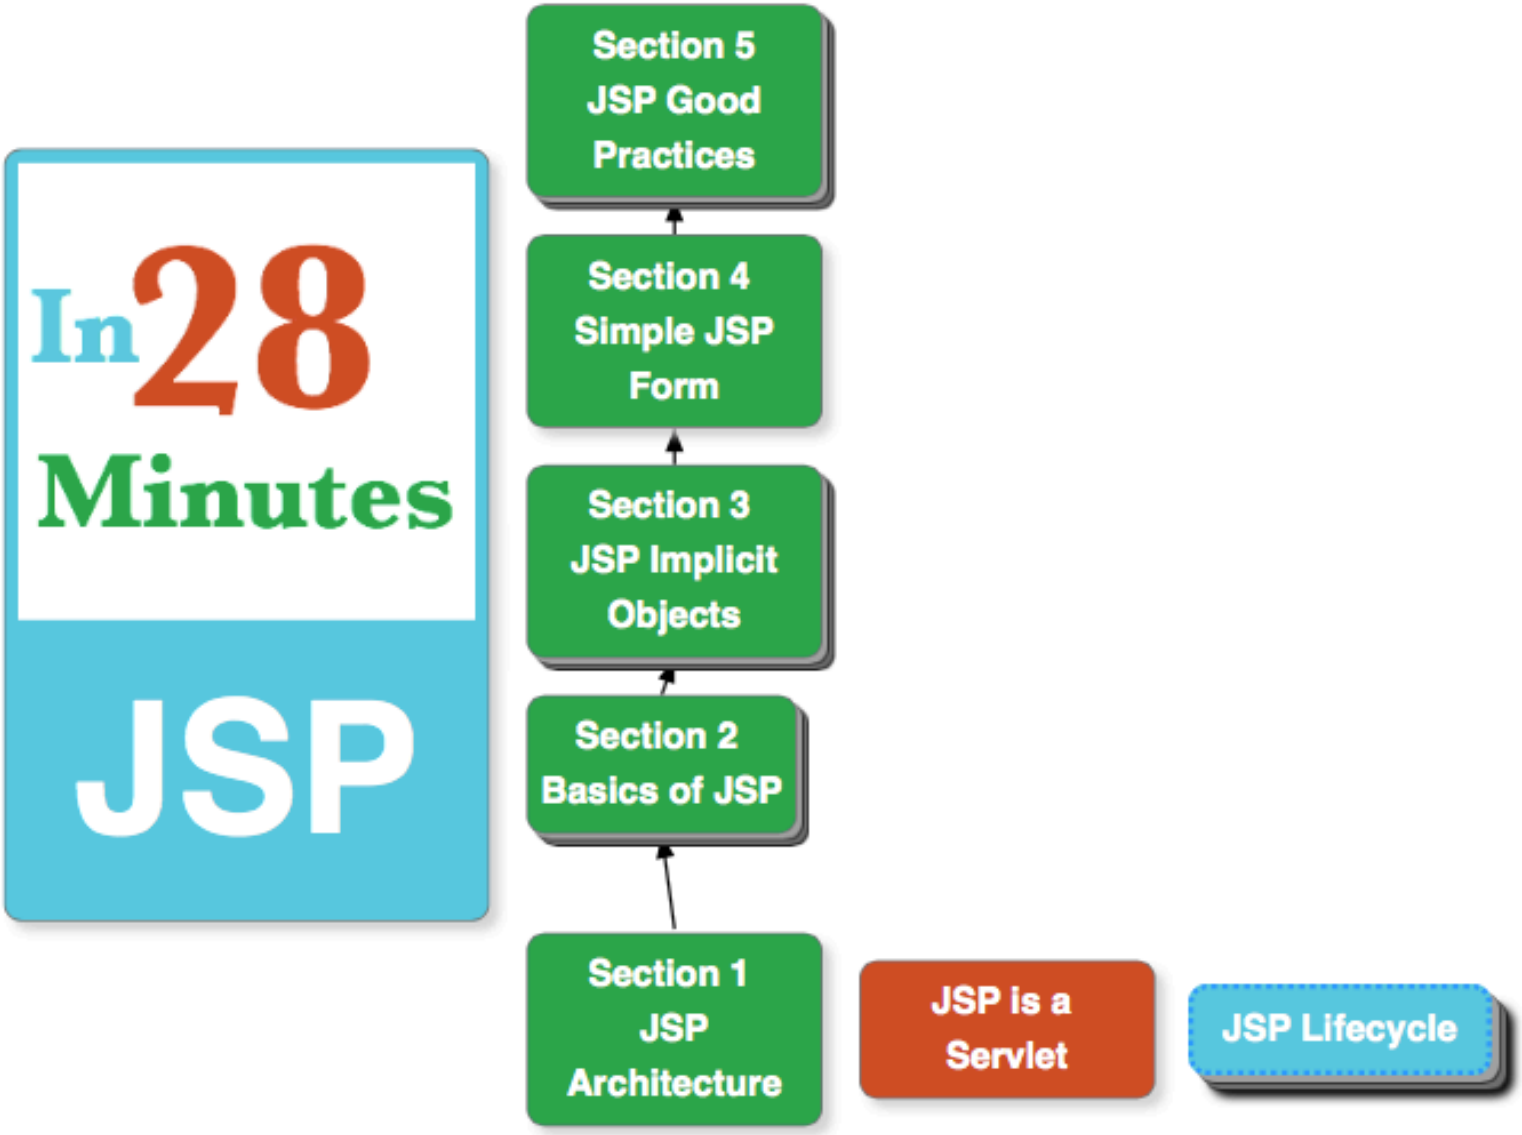
Step 2 – Video 3

JSP

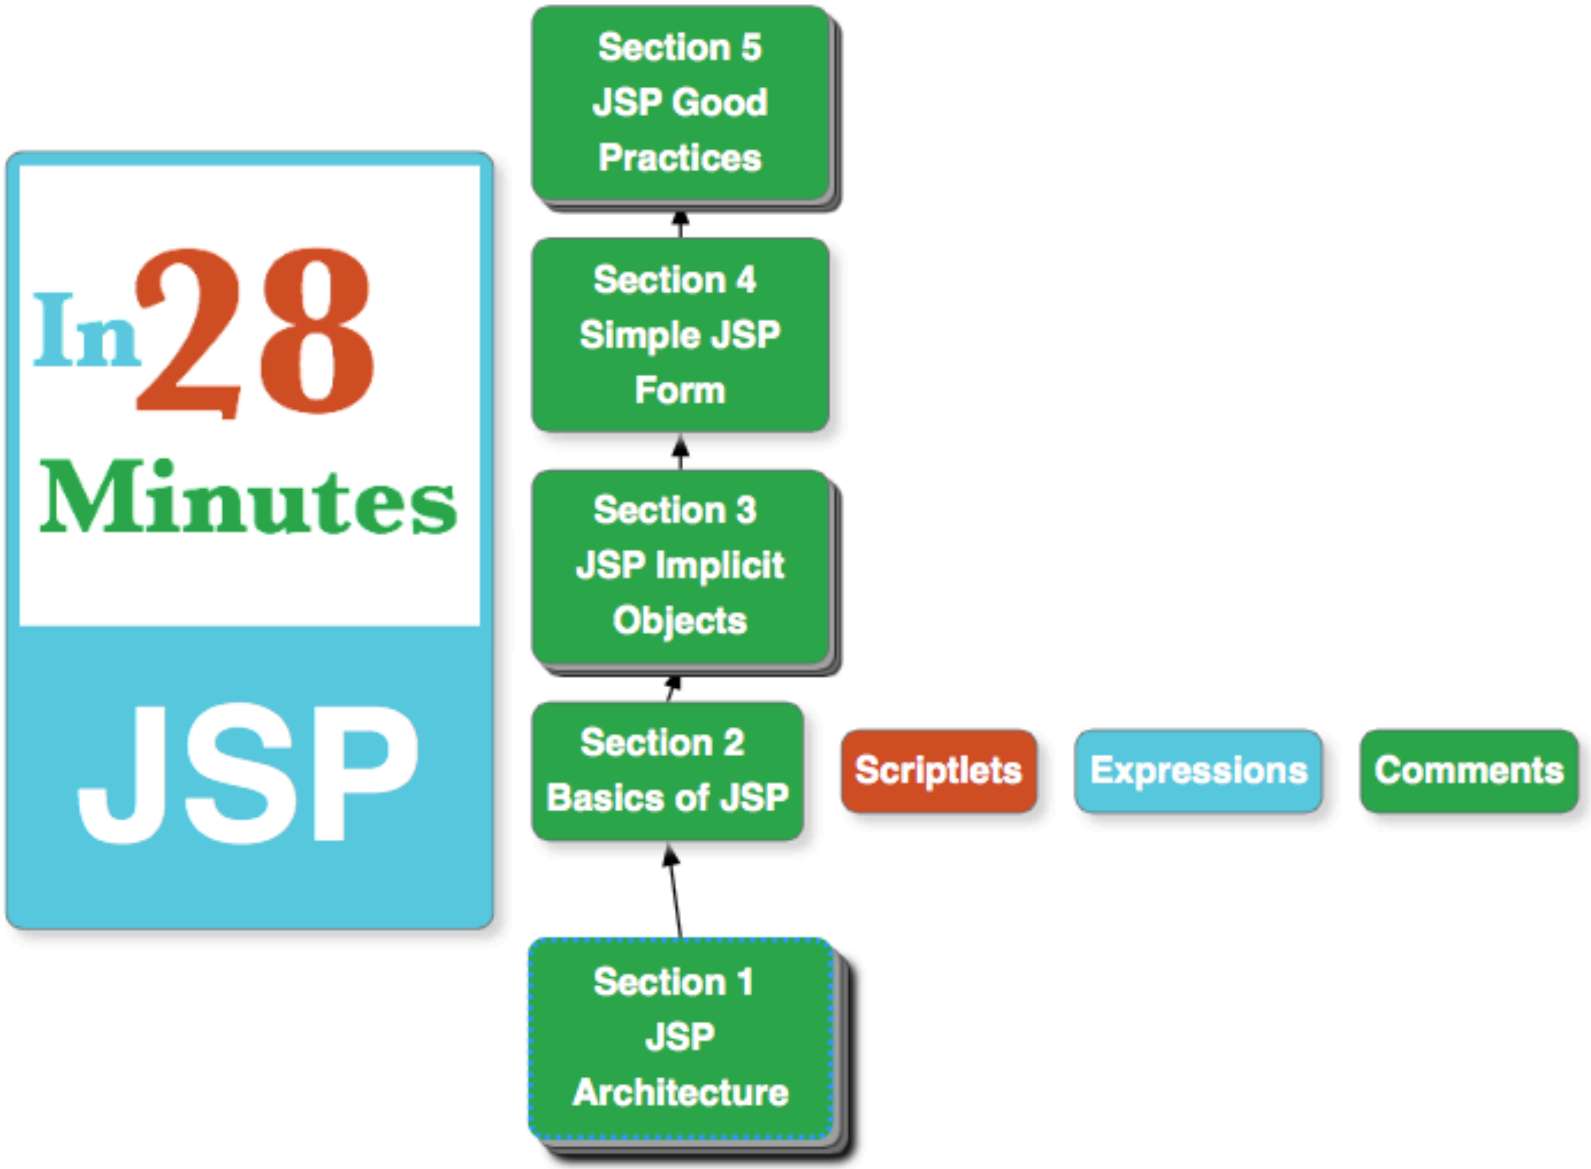
In28Minutes



In28
Minutes
JSP
Section 5
JSP Good
Practices
Section 4
Simple JSP
Form
Section 3
JSP Implicit
Objects
Section 2
Basics of JSP
Section 1
JSP
Architecture



In28
Minutes
JSP
Section 5
JSP Good
Practices
Section 4
Simple JSP
Form
Section 3
JSP Implicit
Objects
Section 2
Basics of JSP
Section 1
JSP
Architecture
JSP is a
Servlet
JSP Lifecycle



In28
Minutes
JSP
Section 5
JSP Good
Practices
Section 4

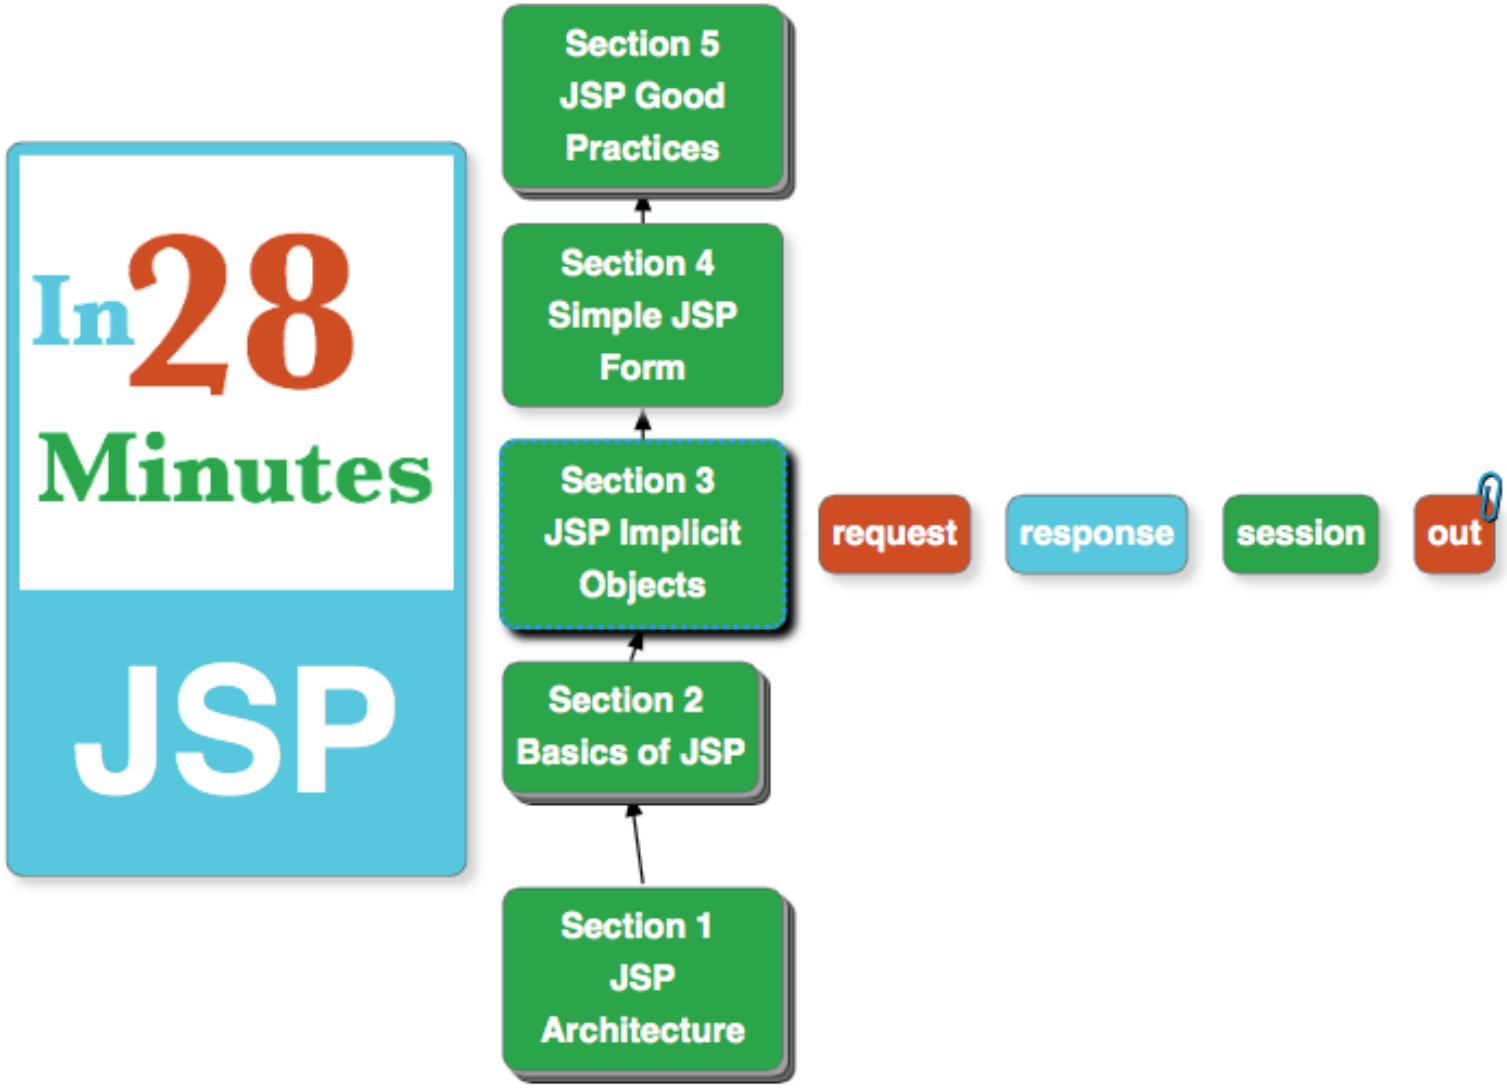
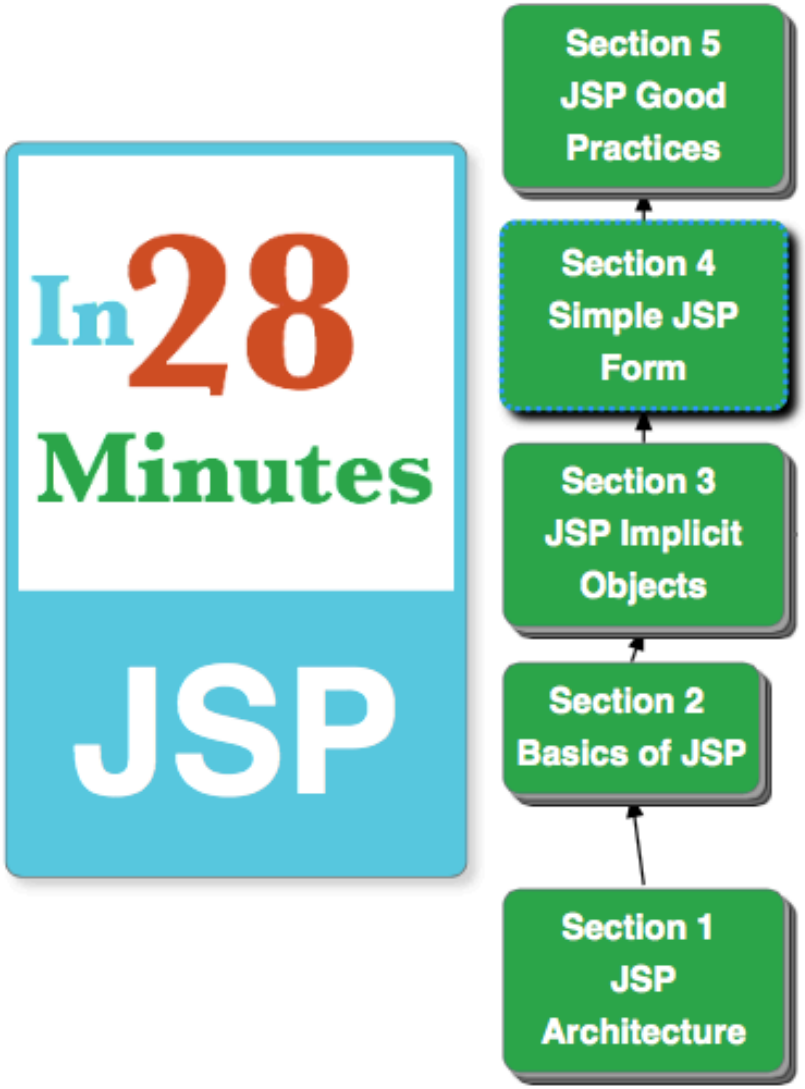
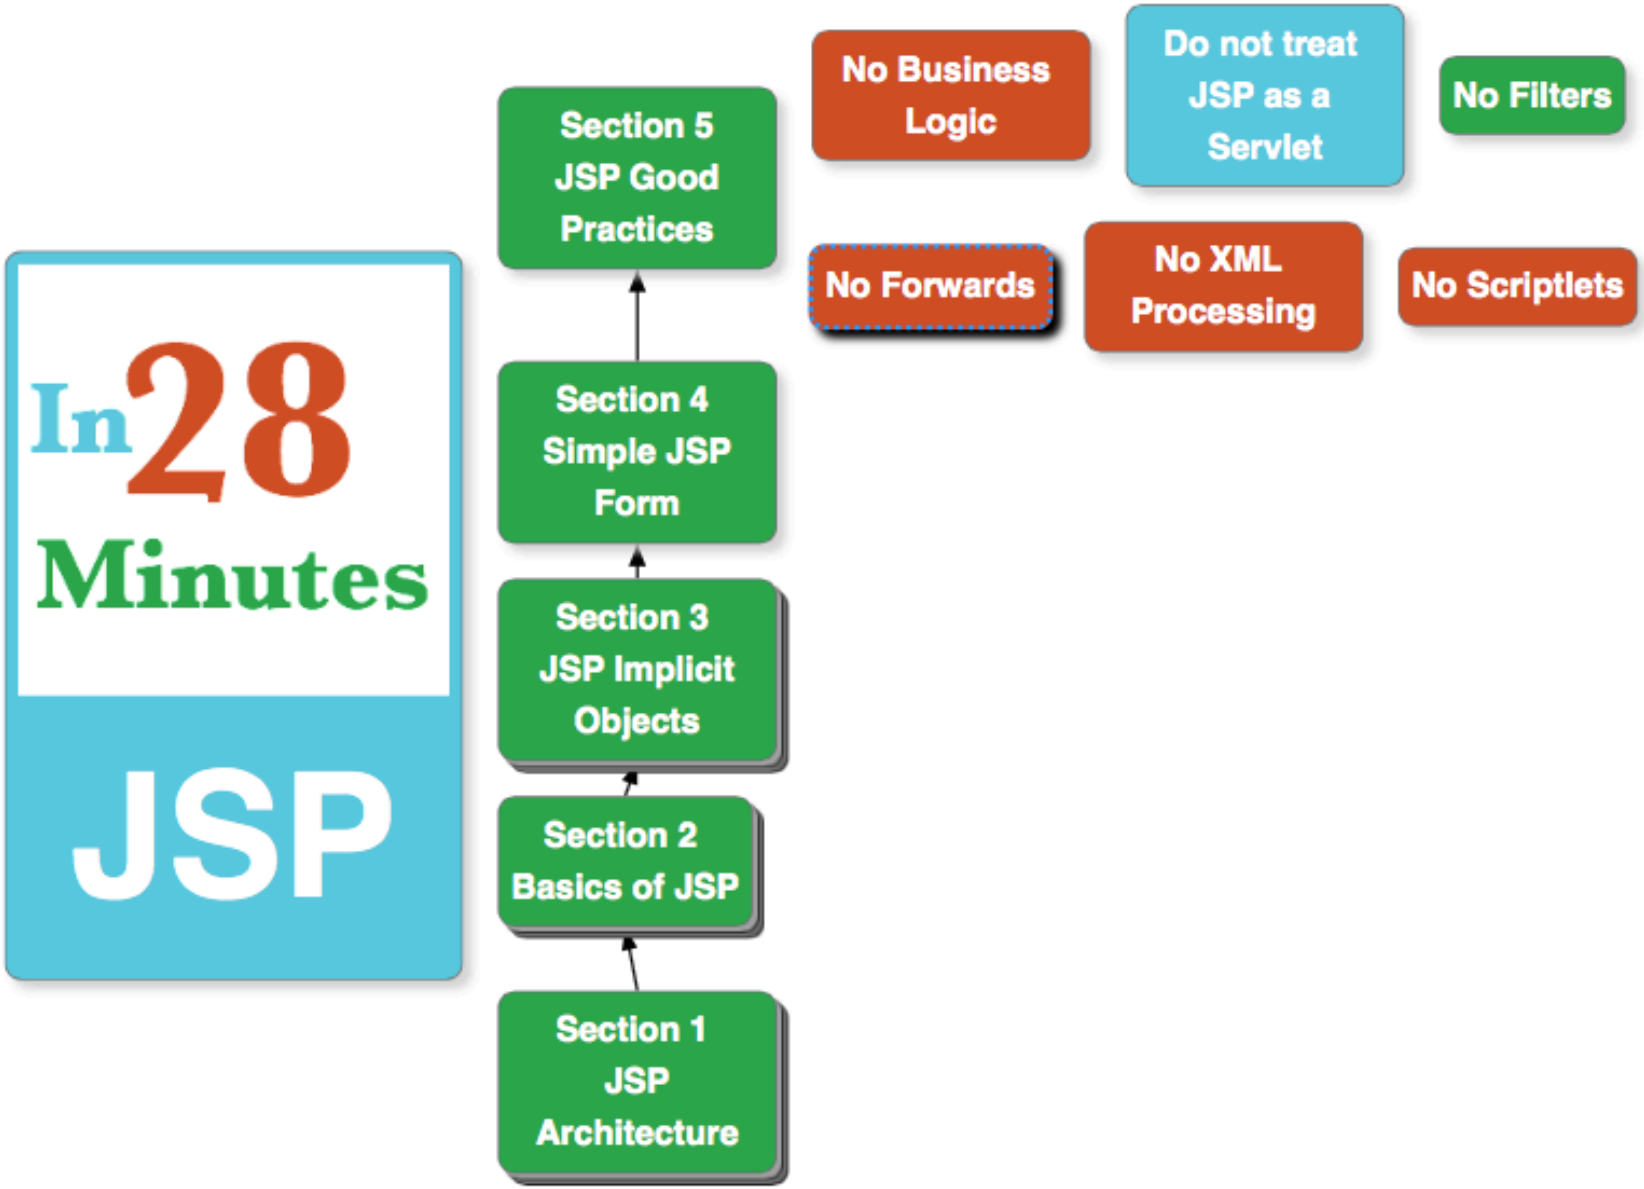
Form
Section 3
JSP Implicit
Objects
Section 2
Basics of JSP
Scriptlets
Expressions
Comments
Section 1
JSP
Architecture



In28
Minutes
JSP
Section 5
JSP Good
Practices
Section 4
Simple JSP
Form
Section 3
JSP Implicit
Objects
Section 2
Basics of JSP
Section 1
JSP
Architecture
request
response
session
out



In28
Minutes
JSP
Section 5
JSP Good
Practices
Section 4
Simple JSP
Form
Section 3
JSP Implicit
Objects
Section 2
Basics of JSP
Section 1
JSP
Architecture

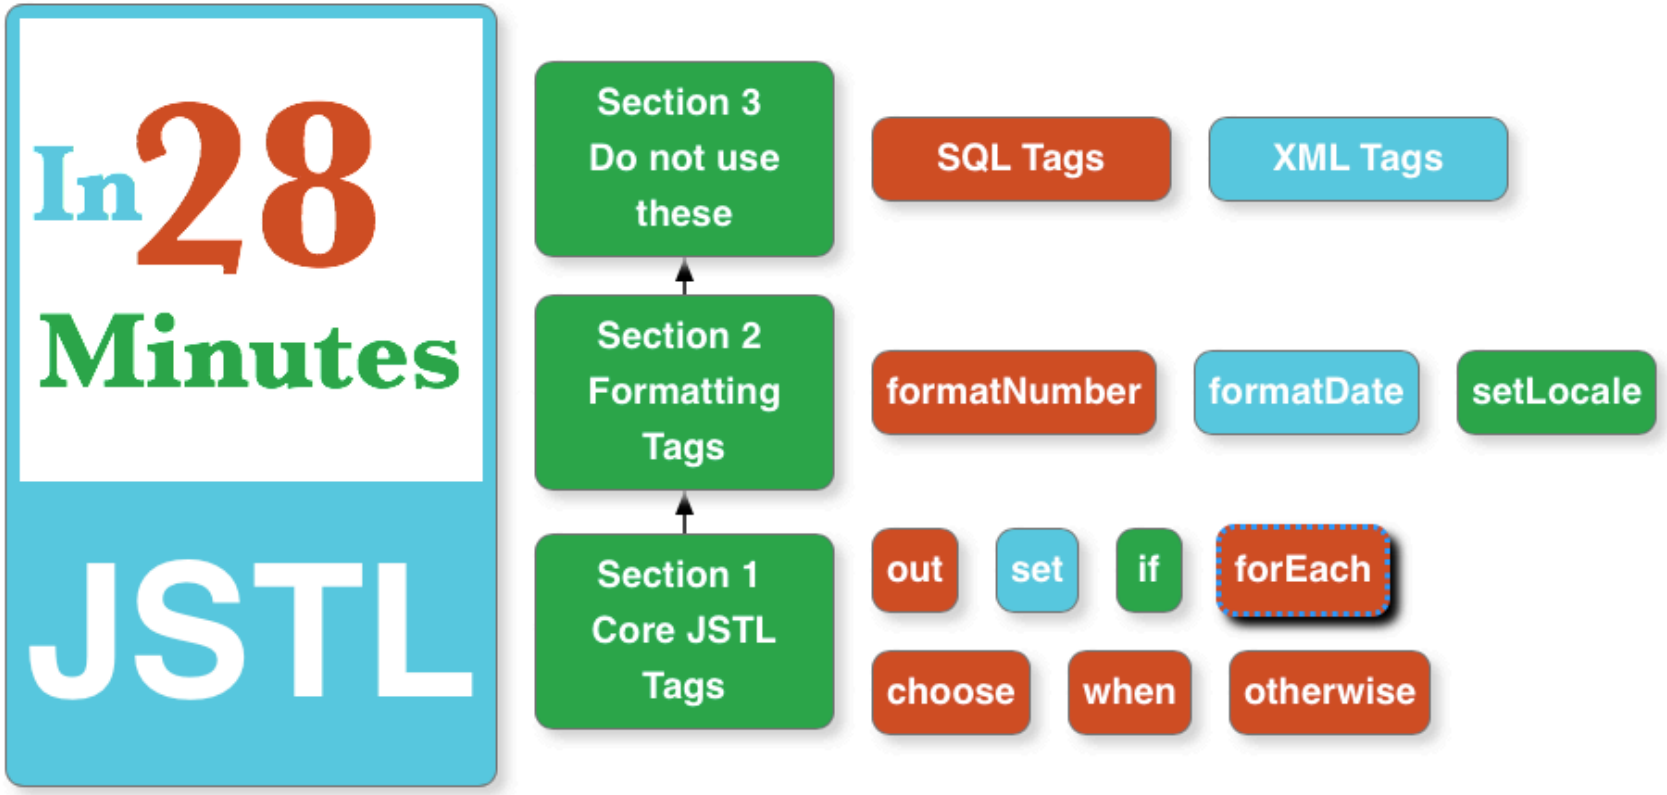


In28 Minutes
JSP
Section 1 JSP Architecture
Section 2 Basics of JSP
Section 3 JSP Implicit Objects
Section 4 Simple JSP Form
Section 5 JSP Good Practices
No Business Logic
Do not treat JSP as a Servlet
No Filters
No Forwards
No XML Processing
No Scriptlets

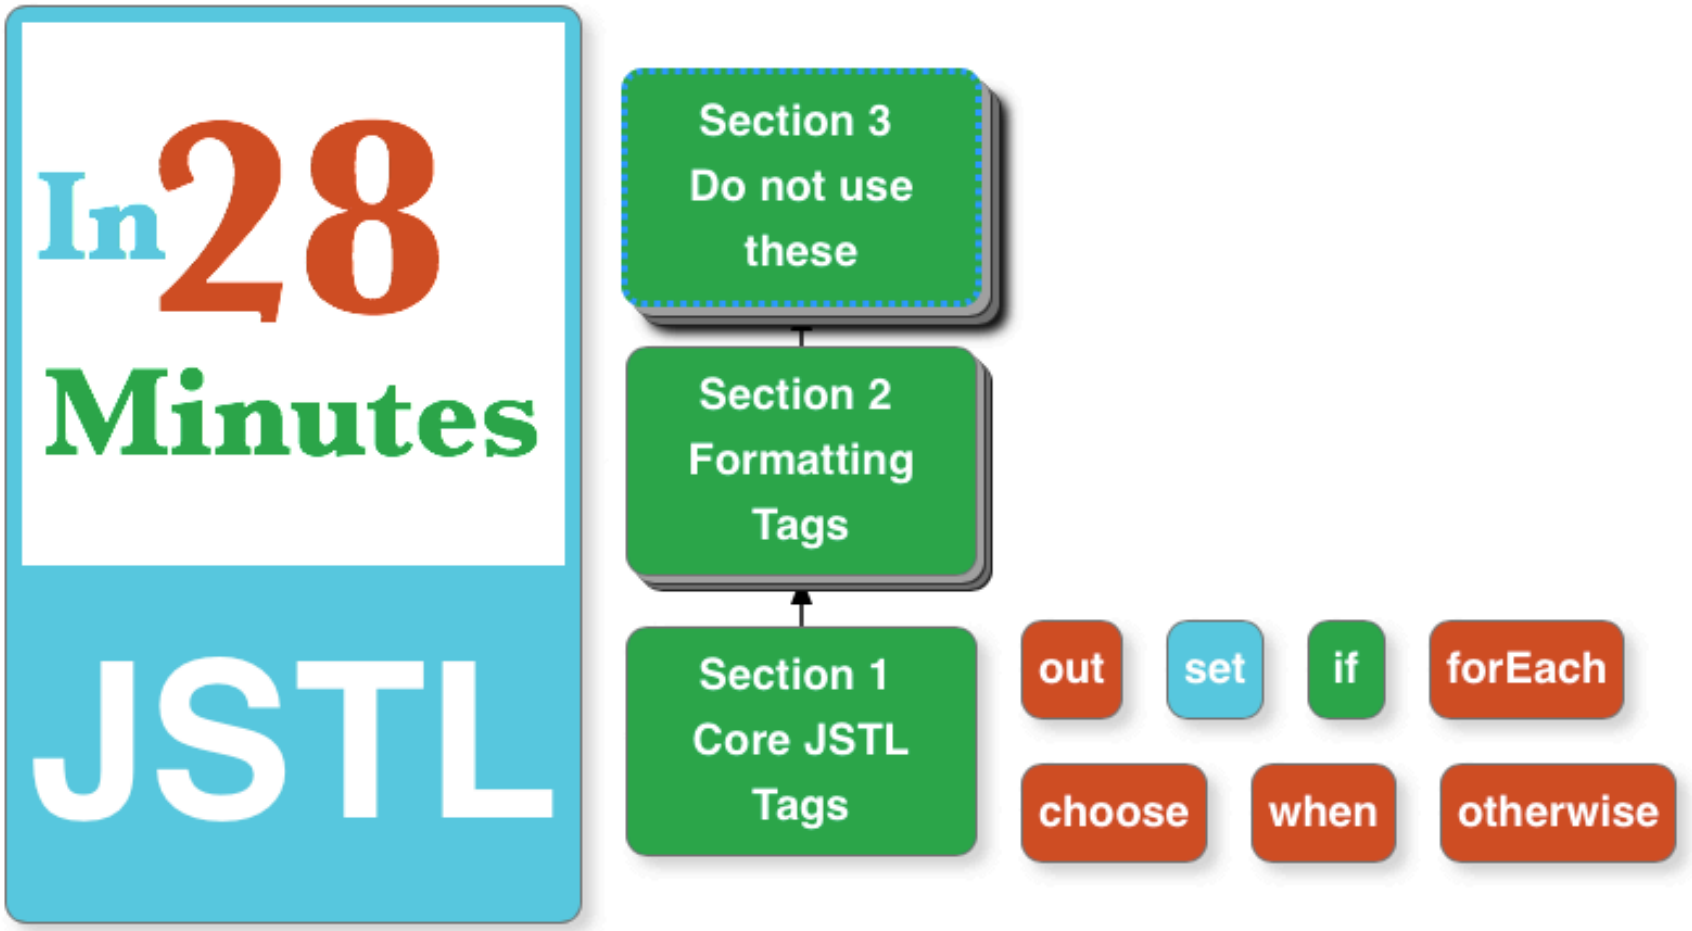
Step 2 – Video 4

JSTL

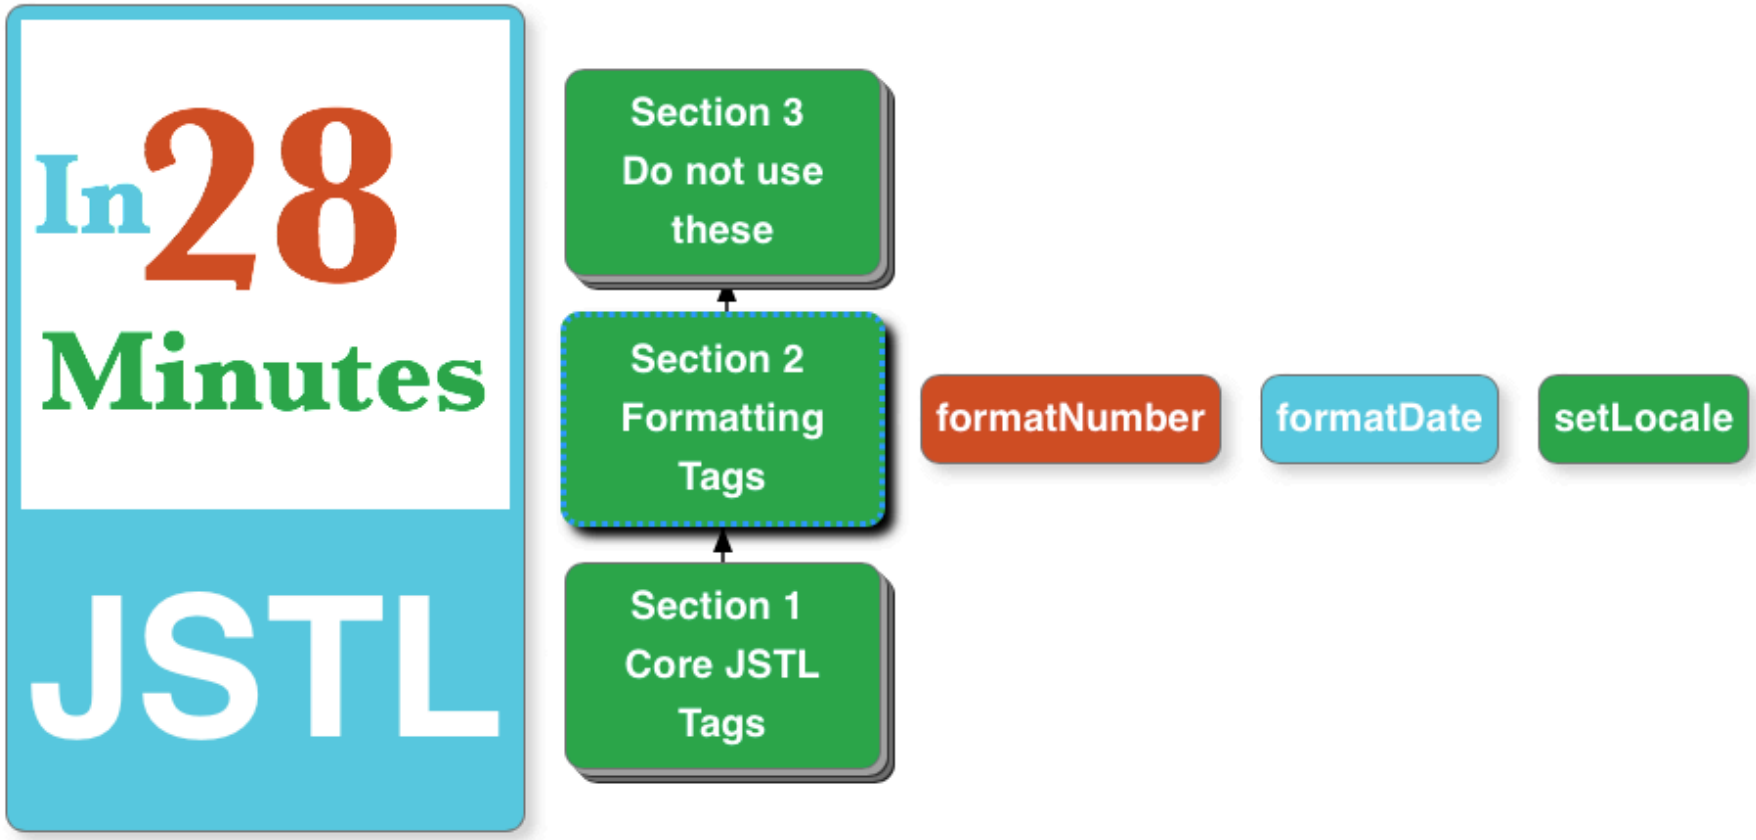
In28Minutes



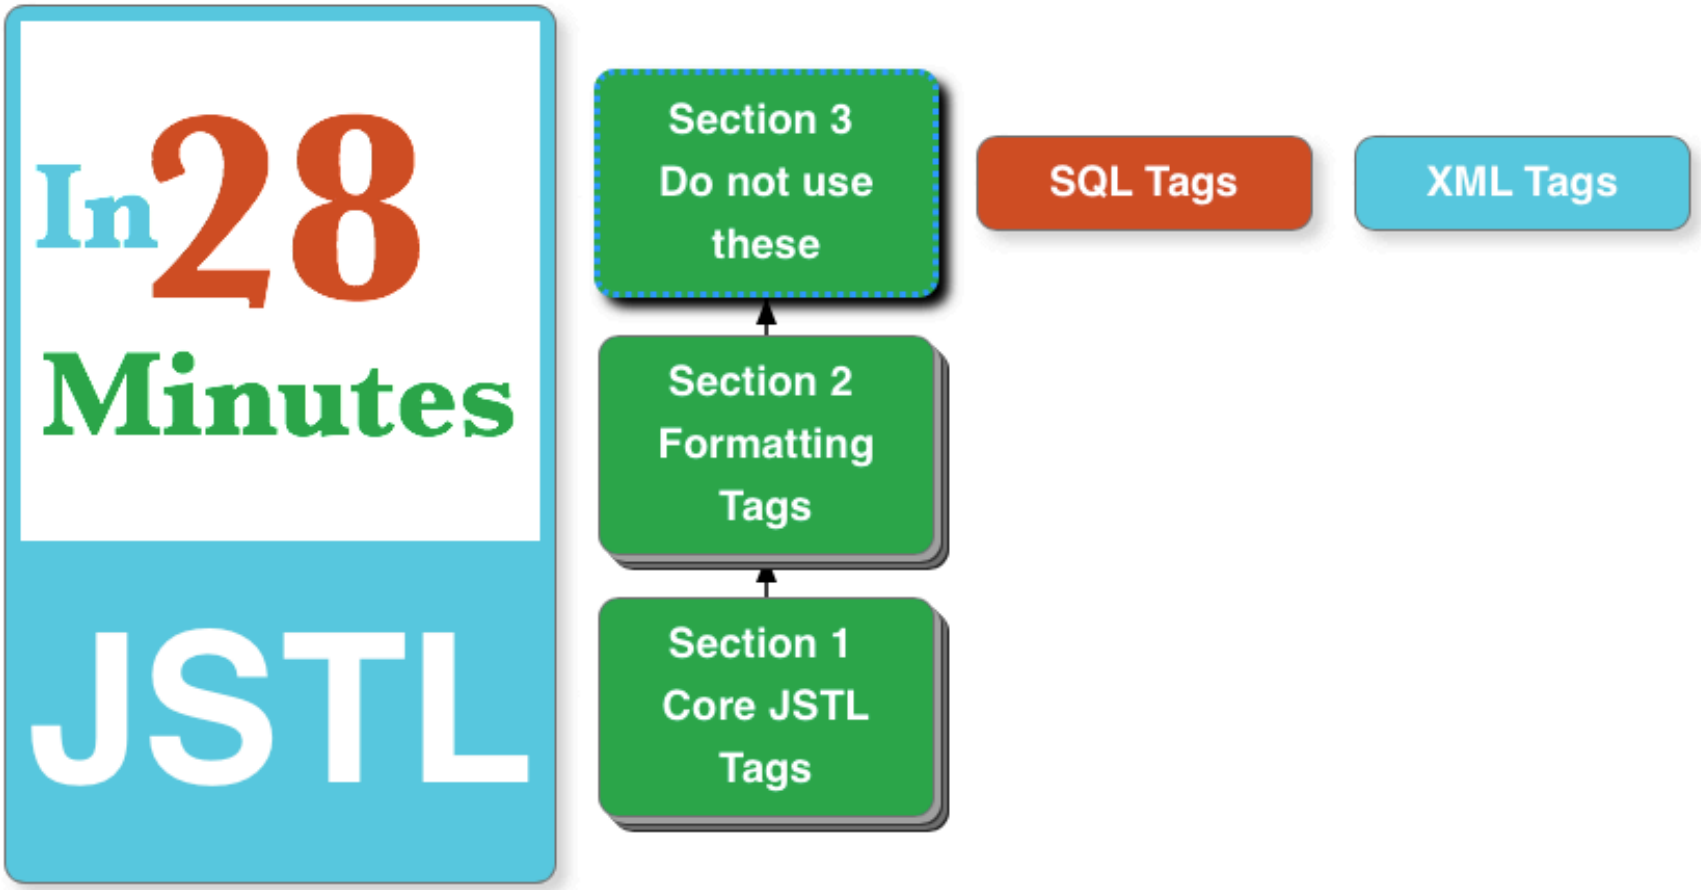
In28
Minutes
JSTL
Section 3
Do not use
these
SQL Tags
XML Tags
Section 2
Formatting
Tags
formatNumber
formatDate
setLocale
Section 1
Core JSTL
Tags
out
set
if
forEach
choose
when
otherwise



In28
Minutes
JSTL
Section 3
Do not use
these
Section 2
Formatting
Tags
Section 1
Core JSTL
Tags
out
set
if
forEach
choose
when
otherwise



In28
Minutes
JSTL
Section 3
Do not use
these
Section 2
Formatting
Tags
Section 1
Core JSTL
Tags
formatNumber
formatDate
setLocale

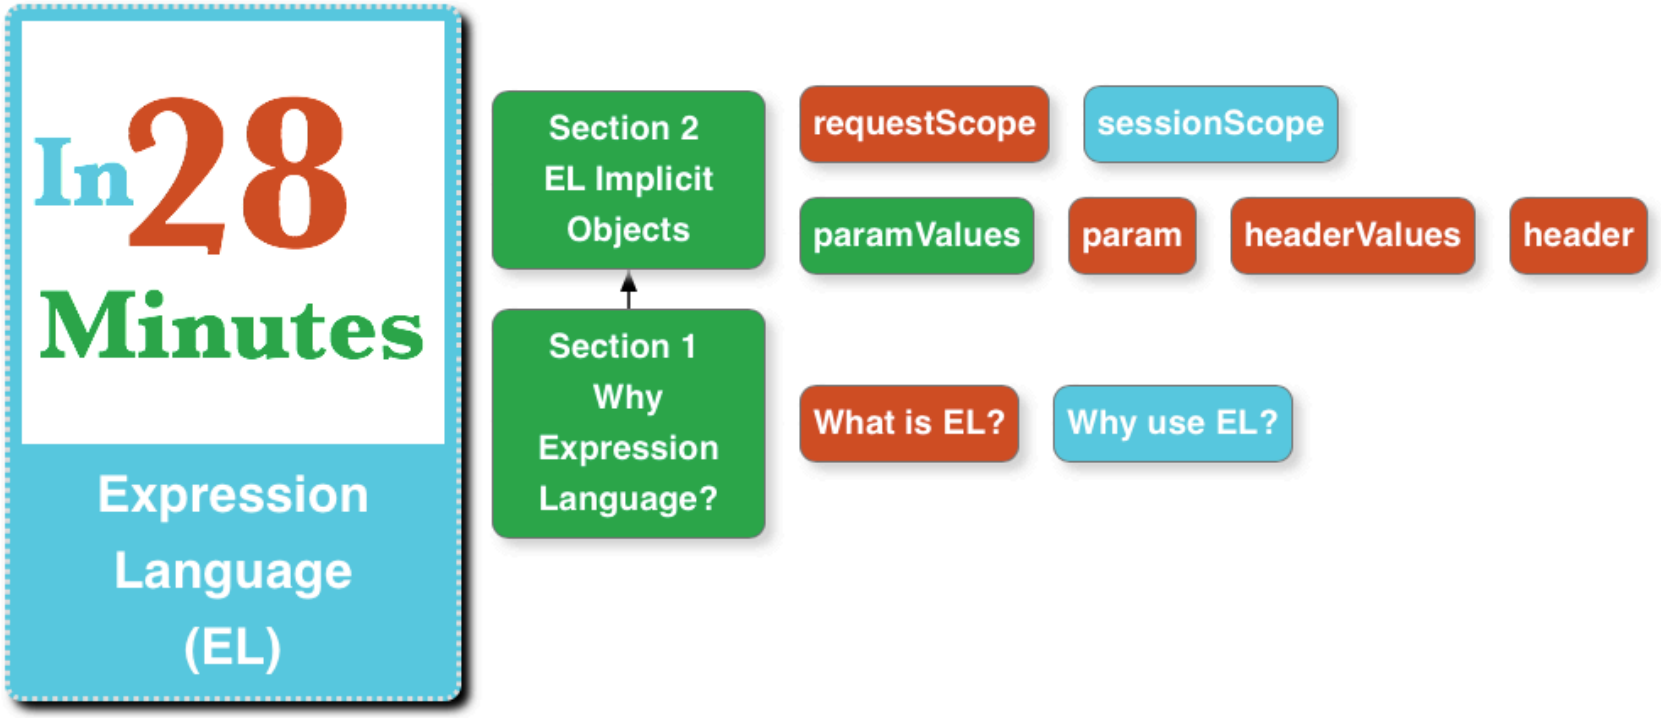


In28
Minutes
JSTL
Section 3
Do not use
these
Section 2
Formatting
Tags
Section 1
Core JSTL
Tags
SQL Tags
XML Tags

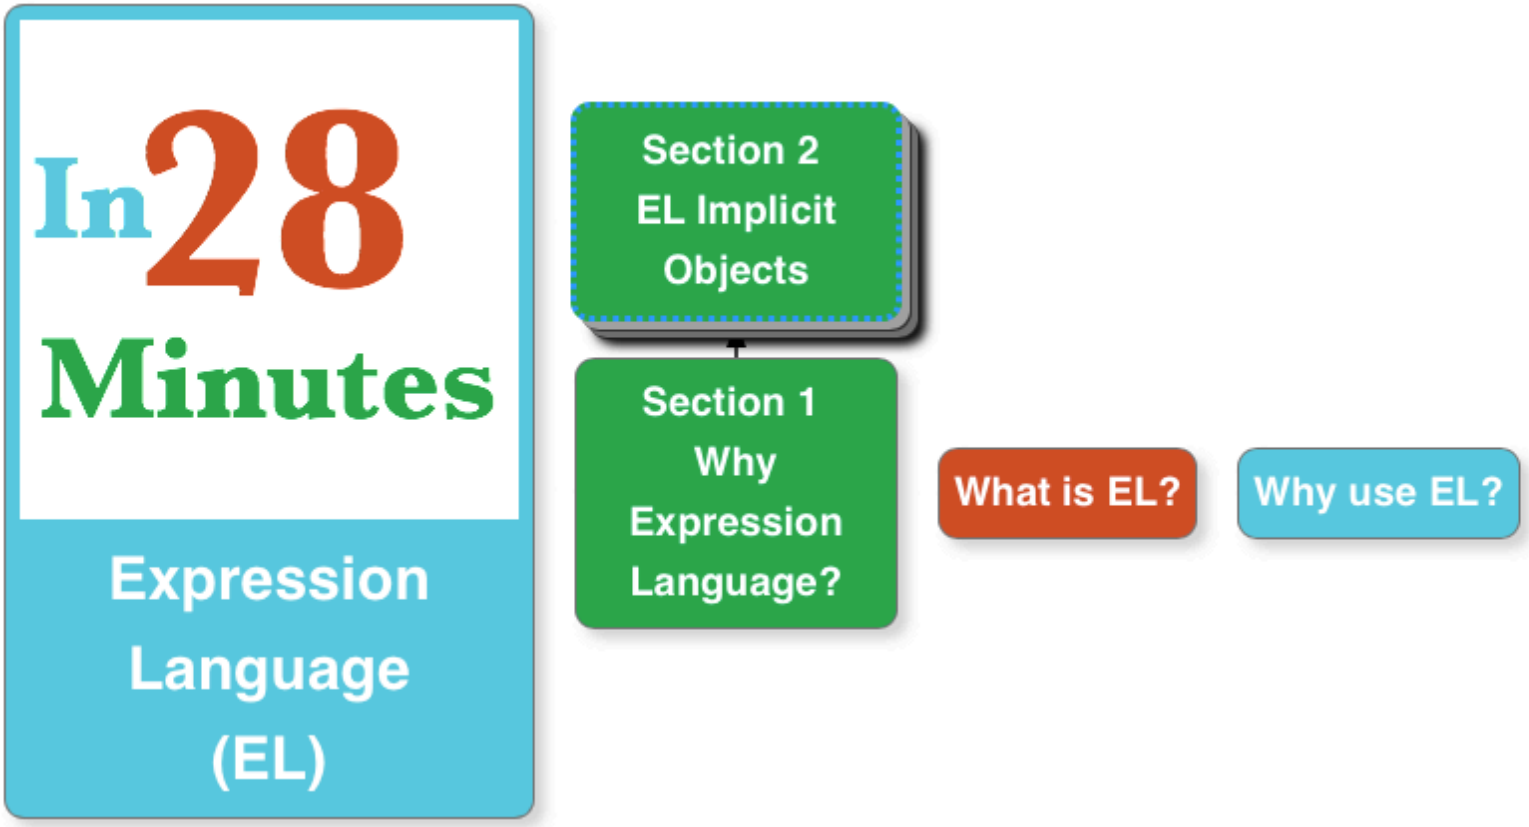
Step 2 – Video 5

JSTL

In28Minutes



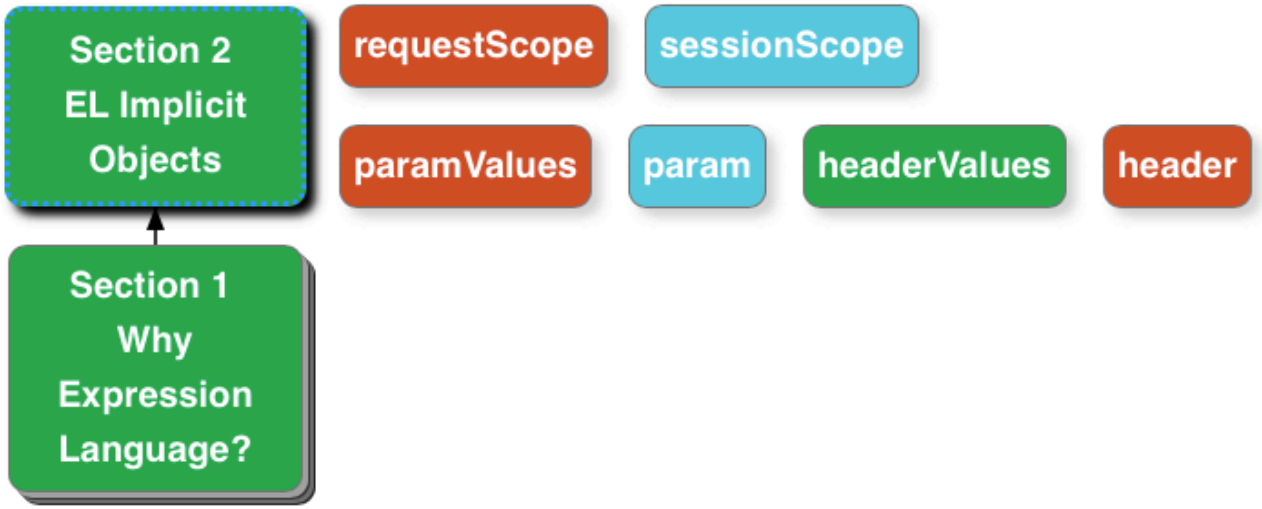
In28
Minutes
Expression
Language
(EL)
Section 2
EL Implicit
Objects
Section 1
Why
Expression
Language?
requestScope
sessionScope
paramValues
param
headerValues
header
What is EL?
Why use EL?



In28
Minutes
Expression
Language
(EL)
Section 2
EL Implicit
Objects
Section 1
Why
Expression
Language?
What is EL?
Why use EL?

In28 Minutes

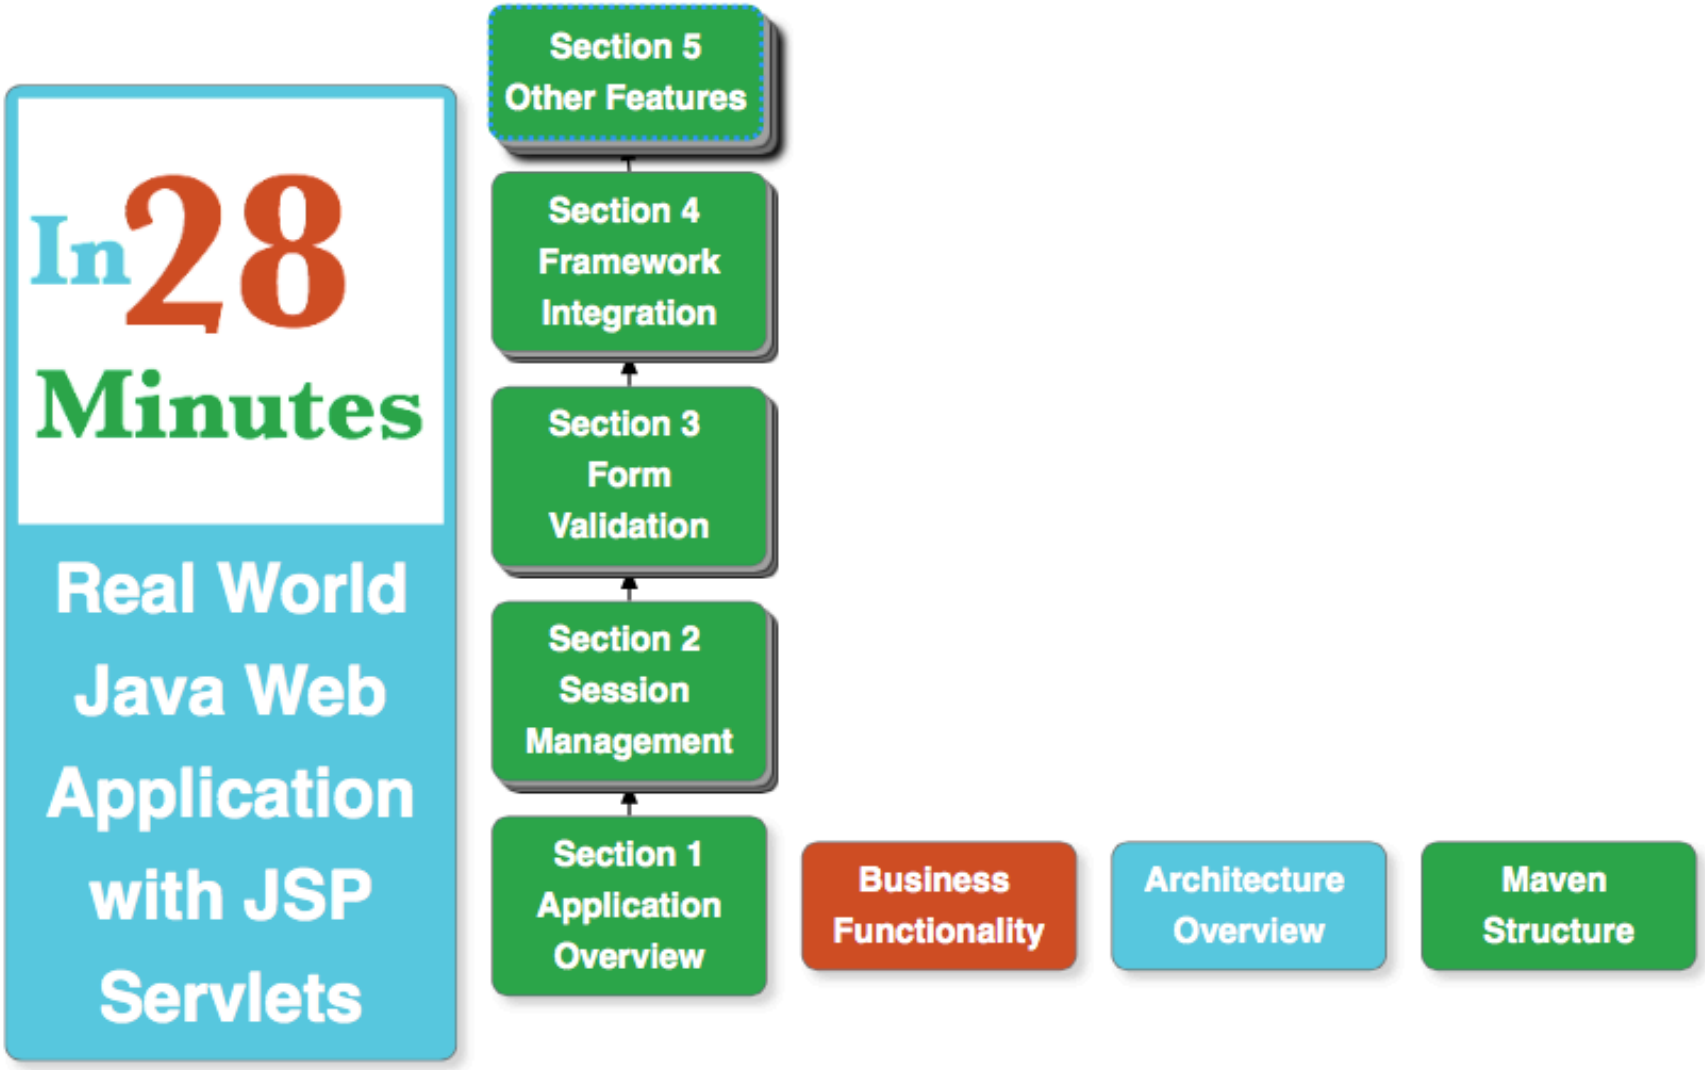
Expression Language (EL)



Step 2 – Video 6

Real World Java Web Application

In28Minutes



In28 Minutes
Real World Java Web Application with JSP Servlets
